Hej!

Välkomna till MVE:s julnummer. Efter förra numrets urladdning vad gäller t ex Mexiko-hörigheter, "mañana mejicana" som någon skrev, har det nu lugnat ner sig till mera "normala" nivåer, nåja några mexare finns även i dag. Detta nummer går annars i QSL-ens och QSL-kopiornas tecken, av de senare har vi dessutom sparat några till kommande nummer. Tack till alla som förser oss med detta material.

Även om ARC är mitt i säsongen, detta är nummer 11 av totalt 20, så stundar snart ett nytt år. Självklart hoppas vi på god uppslutning kring klubben under det nya året. Vi hoppas att även de som varit helt tysta hittills under säsongen hör av sig. Vi har ju, som alla vet, ett aktivitetskrav, ett mycket lågt ställt sådant.

Vi har i två nummer efterlyst medlemmarnas åsikter betr decimalernas placering i loggen. Intresset har varit svagt, men de få som hört av sig i frågan vill hellre ha decimalerna redovisade i tipstexten och inte i frekvenskolumnen. Reds anser då att dessa decimaler bör redovisas på ett speciellt ställe, nämligen *strax före signaturen, inom parentes och i kursiv stil*. Kan vi få alla att följa detta? Senare får vi ändra tabbinställningarna, men det återkommer vi till, vi tar en sak i taget.

I detta nummer hittar du förutom de fasta avdelningarna:

- * StoppTid – Radio Nord 1 år 1962 – TN/RFK
- * Preliminär inbjudan till konvent 23-24 april 2016 – BE/HM/GL

QSL:

- * LLE-4 Radio Northern Star-1611 kHz
- * Myanma RTV, Yangon-576 kHz – JM
- * KTMT Medford OR-580 kHz – JOB
- * CJAD Montréal QC-800 kHz – JOB
- * KXIC Iowa City IA-800 kHz /WTAD Quincy IL-930 kHz – RÅM
- * KHAC Tse Bonito NM-880 kHz – JOB
- * KCJB Minot ND-910 kHz – HR
- * KFBX Fairbanks AK-970 kHz – HR
- * KLAV Las Vegas NV-1230 kHz – JOB
- * KUMA Pendleton OR-1290 kHz – HR
- * KOTA Rapid City SD-1380 kHz – HR
- * WLEC Sandusky OH-1450 kHz + stationsbilder – JOB
- * XECHZ Radio Lagarto de Chiapas-1560 kHz – TBV

Alla medlemmar önskas en

God Jul och ett Gott Nytt År!

All Times in MV-Eko are UTC

Notering i loggen:

KM/K = Kai Mausset, Kongsfjord

Europa

- 549 10.12 0500 R Koper kämpar hårt med Ukraina, tysken och Spirit Radio här. WIK
612 14.12 0500 R Radonezh, St. Petersburg i kamp med annan ryss. WIK
621 10.12 0430 R Pridnestrovskaya, Transnitsien ID och kamp med belgaren. WIK
648 12.12 0635 R Murski Val med slovensk pop. WIK
765 10.12 1535 R Mayak, Odessa med lokal-ID. WIK
900 11.12 2159 COPE, Vigo kom igenom i det lokala fönstret – brukar annars ”alltid” vara bara Granada som kommer tillsammans med Popular. JE
1017 10.12 0445 Free Radio 80’s, Shrewsbury störs alltid av tysken. WIK
1053 9.12 1457 R Iasi, Rumänien med lokal-ID. WIK
1107 17.12 2000 AFN, Vilseck, Bavaria is now joining 1143 kHz relaying The Eagle-program. BE
1116 6.12 0625 Danskó Radio, Ungern med lokal-ID. WIK
1323 7.12 0405 R Targu Mures med lokal-ID. WIK
1404 9.12 1600 R Cluj går alltid starkt här. Ibland med lokal-ID R. Sighet. WIK
1611 13.12 2055 LLE-4 Bergen, Norway testing for Radio Northern Star and Bergen Kringkaster with ID in English and Norwegian with some short musical interludes and 1 MHz-tone & CW-signals. Some QRM from pirates, but after 2110 more quiet and partly good signal (USB). Only 65 watts, but I am happy as during the Christmas LLE-4 will test with higher power, if the transmitter manages up to 250 watts. I really wish Svenn Good Luck. BE
1611 16.12 2045 LLE-4 R Northern Star, Bergen – test igen – bättre ju senare – (tnx BE info) HM

Afrika

- 891 20.12 2100 R Algerie, Ouled Fayet har nu kommit igång med program 1 på arabiska efter sin långa period med testsignal på 1000 Hz. Pip full hour sedan nyheter. Det verkar som om de ej kör med full effekt ännu. BE

Nordamerika

- 680 26.11 0100 WRKO Boston MA dominerade över CJOB denna gång. SW
700 27.11 0745 CJLI Calgary AB bra . SW
710 14.12. 1300 KIRO Seattle WA med ESPN Seattle id KM/K
730 26.11 0100 CKAC Montreal QC stark med ID. SW
770 27.11 0744 CHQR Calgary AB med tal. SW
790 26.11 0530 KFGO Fargo ND med reklam och ID. SW
830 26.11 0000 WCRN Worcester MA ID och nyheter. SW
830 26.11 0635 WCCO Minneapolis MN upp med ID. SW
840 27.11 0738 CFCW Camrose AB mycket bra med countrymusik. SW

850 KOA NEWS RADIO

850	27.11	0755	KOA Denver CO bra men annars väldigt lite liv på frekvensen. SW
870	26.11	0000	WWL New Orleans LA bra med ID. SW
880	27.11	0739	CHQT Edmonton AB med "Newsradio 8-80". SW
900	16.12	1000	KZPA Fort Yukon AK id 1013 mellom to sanger KM/K
900	5.12	0700	CHML Hamilton ON "Hamiltons newsleader". SW
910	27.11	0740	CKDQ Drumheller AB Countryrock gick mycket bra. SW
920	5.12	0731	CKNX Wingham ON bra med country. SW
950	25.11	0303	WWJ Detroit MI "Newsradio 9-50 9.03". Svår frekvens. SW
950	5.12	0800	KJR Seattle WA "KJR AM and KJR FM" stark men splatter. SW
960	27.11	0759	CFAC Calgary AB med Audi reklam. SW
970	26.11	0500	KBUL Billings MT med "Newstalk 95.5". SW
970	26.11	0710	KQAQ Austin MN bra med countrymusik. Bl a Marty Stuart. SW
1000	5.12	0800	KOMO Seattle WA rena Parkastyrkan. SW
1010	26.11	0100	CFRB Toronto ON "Torontos Newstalk 10-10". SW
1070	5.12	0800	KNX Los Angeles CA helt ren och stark. SW
1100	27.11	0700	WTAM Cleveland OH "Newsradio WTAM". SW
1110	27.11	0700	KFAB Omaha NE "Newsradio 11-10 KFAB". SW
1160	5.12	0729	KSL Salt Lake City NV slog ut WYLL totalt. SW

1260	5.12	0700	WPNW, Zeeland MI med "WPNW Zeeland, Holland, Grand Rapids" följt av ABC-news. TJ
1200	26.11	1000	WOAI San Antonio TX stark och dominant. San Antonio är en fantastisk stad med sin River Walk. SW
1250	25.11	0300	CJYE Oakville ON med "Joy 1250". Tillsammans med WHHQ SW
1250	25.11	0300	WHHQ Bridgeport MI rel px. "Catholic radio...WHHQ Bridgeport". Sedan EWTN om bl a aborter. Riktigt bra. SW
1250	5.12	0800	KWSU Pullman WA "Northwestern Public Radio 1250 KWSU" SW
1280	12.12	0700	BBN Hamilton. Har alltså inte upphört – som t ex AM Gold 1450 – trots att uppgifter gjort gällande så. (1280,009). JE
1280	27.11	0700	CFMB Montreal QC med engelskt ID. SW
1290	25.11	0300	CKBK London ON "Newstalk 12-90 CKBK". SW
1290	26.11	1002	WMCS Greenfield WI med ID och nyheter. SW
1290	4.12	0143	WIRL Peoria IL med ID i gröten på frekvensen. Oldies. SW
1290	5.12	0806	KOWB Laraine WY "First choice for news, sports and talk". SW
1310	26.11	1000	WIBA Madison WI ID tillsammans med sportstation. SW
1310	5.12	0830	KFKA Greeley CO upp med ID. SW
1310	2.12	0659	Dementi logg av WDTW i förra numret: Fick ett mail från BOS som säger: <i>Har inte börjat kolla Ekot förrän nu. Ser att du loggat WDTW? Stationen är nerlagd sedan några år och antennmasten bortforslad. WCCW kanske? /BOS.</i> Inte är det lätt att höra en nerlagd station som dessutom har en bortforslad antenn. Att CIWW fanns där var inte att ta miste på med mycket snack om Ottawa. Ytterligare en, ibland jämnstark, där jag uppfattade Air America precis före anropet, vilket ledde mig på fel spår och tyckte mig uppfatta ID som WTDW. Men BOS säger efter att ha lyssnat på min inspelning: <i>Vad gäller 1310 så hittar jag inget ID på jänkaren utan bara ett klent "CIWW" före nyheterna. Sista W:et hörs bra och näst sista skapligt om man gör en kort slinga. Det går bara få till CIWW, tycker jag, om man tar med alla bokstäverna i slingan./BOS</i> Så roligt slutade den loggningen Stort tack till BOS som var riktigt vaken. TN

- 1320 25.11 0200 WILS Lansing MI med ID. "Talkradio WILS". SW
 1320 5.12 0200 CJMR Oakville ON med ID bra. SW
 1350 5.12 0628 WWVL New Orleans LA med fint ID 3W-L. SW
 1350 5.12 0206 WMOB Mobile AL upp med ID och sedan kristen musik. SW
 1360 5.12 0800 KHNC Johnstown CO mycket bra med ID. SW
 1400 5.12 0300 WOND Pleasantville NJ med "Newstalk 14 hundred WOND". SW
 1430 5.12 0700 KLO Ogden UT ofta framme vid olika tillfällen. SW
 1450 25.11 2300 WPPG Atlantic City NJ bra med ID. SW
 1450 26.11 1000 WFIZ Fond du Lac WI kom upp riktigt bra med ID. SW
 1470 26.11 1000 WBKV West Bend WI med ID på timmen. SW
 1470 4.12 0207 WMBD Peoria IL med ID. SW

- 1480 8.12 0614 WPWC Dumfries-Triangle VA med id "R Zion" och ett krystat WPW, Även 15.12. SS rel. (tnx GN och flera instämmanden) – helt ny för HM
- 1480 8.12 0658 **WPWC** Dumfries-Triangle VA. Fick ett mail från Christoph Ratzler med en superfin inspelning av denna station den 8/12. Christoph säger: *Today are some fine signals around 0530/06 UT. A new one for me: "Radio Zion 14-80 AM portadora de buenas nuevas" from Dumfries Triangle - Virginia with big signal for a 500 watt station! Hope you also find this in your recording on 1480? Enclosed a longer clip with great IDs.* Så det var bara att leta fram inspelningen och först vid 0658 fanns stationen också här men väldigt svagt. Hade aldrig hittat den utan hjälp av Christophs inspelning, men det finns ett R Zion ID där i varje fall. På deras hemsida <http://www.radiozion1480am.com/> kan man läsa: *Estamos agradecidos con el Señor Jesús por que después de una pequeña ausencia, Radio Zion 1480 am, esta nuevamente trasmitiendo el mensaje de salvación a toda el área de Washington DC. Para la gloria y honra del Señor Jesús con alabanzas y adoración que fortalece la vida del cristiano y predicaciones edificantes para el provecho de todo el pueblo de Dios. Gloria a Dios!* På Christophs andra inspelning anropar man vid 0600 både med WPWC och R Zion. Christoph säger också att det finns ytterligare ett program som körs från denna station som heter We Act Radio: *We Act Radio is a media corporation that combines broadcast and new media to deliver our shows in the formats people use most. You can follow our shows by streaming them at WeActRadio.com, listening on AM and FM radio stations around the country, downloading them via podcast or on iTunes, or subscribing to our YouTube channel. Our home studio broadcasts from the heart of historic Anacostia in Washington, DC* <http://www.weactradio.com/about/> Stort tack till Christoph Ratzler för detta tips. TN /Tack för snygga logotypes ovan Thomas! –tl/
- 1510 5.12 0206 WLAC Nashville TN med ID och väder. SW
- 1550 2.12 0700 WSDK Bloomfield CT kom upp lagom till heltimmen "WSDK Bloomfield Hartford..." TJ
- 1560 5.12 0800 KNCR Bakersfield CA med ID. Flera stationer på frekvensen. SW
- 1590 26.11 0929 KGFK East Grand Fork MN "Oldies 95.7 The Fork". SW
- 1590 4.12 0300 WCGO Evanstone IL med ID. SW
- 1710 2.12 0655 WQFG689, Hudson County NJ hördes svagt med samma anrop som när jag hörde dom februari -14. Denna morgon var det otroligt starka signalstyrkor från nästationerna på X-bandet, 1700 Ramapo NY gick nästan som en lokalstation. Tyvärr finns dom flesta x-bandare redan i pärmén. TJ

Mexiko, Centralamerika och Västindien

630	6.12	0600	WUNO NotiUno, San Juan med stort NotiUno-id med bokstavscall på stationerna. JE
760	5.12	2359	WORA Mayagüez "NotiUno-id" och reklam för Banco Popular. JE
1060	5.12	0631	XERDO La Raza 1060, Reynosa med ett kort "La Raza 1060 y 93.9" mellan låtarna, efter sett tips av TJ förra numret. (1060.078). Sim
1120	5.12	2300	WMSW R Once, Hatillo – inte stark men bra ändå. JE
1140	5.12	2300	CMIP R Surco, Morón fortsätter att gå starkt här nu. JE
1230	9.12	0718	XETVH La Radio de Tabasco, Villahermosa kom upp en liten stund denna morgon med ett id och tc "En La Radio de Tabasco es la 1 y 18 minutos...". Sim
1240	12.12	0700	HIC26 R María de la Altagracia, Santo Domingo kom fram ganska bra vid id och musik. JE
1430	12.12	0600	HIC54 R Emanuel, Santiago med id och predikan. JE
1470	5.12	2300	CMLM R Libertad, Puerto Padre bra en stund innan Cumbre blev för stark. JE
1470	12.12	0600	CMLL R Victoria, Puerto Padre ensam på frekvensen. JE
1480	14.12	0659	WMDD Fajardo PR TOH id uppfattade dock bara "...Puerto Rico ... 14-80 ..." HM
1520	12.12	0601	WVOZ San Juan PR stark och nästan ingenting från dominanten Libertad JE
1560	9.12	0710	XECHZ R Lagarto, Chiapa de Corso tillsammans med Adventista. Sim
1580	12.12	0601	WMTI Morovis PR gick nästan lika bra här som parallellfrekvensen 1660 WGIT. Annonserar både WGIT och WMIT i samma anrop på båda. Har bytt från WEKO till WMTI. JE /Stämmer, se MV-Eko 56/9, även tipset 1660 nedan –tl/
1590	9.12	0714	XEVOZ La Mexicana, México snabbt id mellan låtar. Sim
1590	26.11	0202	HRBX R Perla, El Progreso Tnx JE för tips. Sim
1660	8.12	0701	WGIT Faro de Santidad, Canóvanas. Annonserar både WGIT och WMTI i samma anrop. Går ofta väldigt bra. TN

Sydamerika

600 6.12 0600 HJHJ R Libertad, Barranquilla upp kort vid id. JE

680	6.12	0627	HJZO R Nacional de Colombia, Barranquilla spelade en låt som verkade heta "Dio Dio" RLH
680	6.12	0448	YVQR R Continente, Cumaná "Siempre Radio Continente 5-90 AM". JE
700	6.12	0553	YVMH R Popular, Maracaibo väldigt "dov" modulation. JE
730	5.12	2330	HJCU Cadena Melodía, Bogotá med id – kändes ovanligt tidigt för denna station. JE
730	6.12	0303	OAX4G RPP, San Isidoro. Flera "lokala" id med frekvenser. JE
770	5.12	2330	YVKK RNV, Valencia – en till spansktalande under kändes intressantare... JE
780	6.12	0550	YVMN R Coro, Coro låg länge och "murrade", men kom upp här med fin hörbarhet under någon kvsart. JE
840	6.12	0559	LV9 R Salta, Salta. Hade inte alls väntat mig denna med rådande colombia-konditioner", men HK bekräftar: "Están escuchando AM 8-40 LV9 Radio Salta. El aire que respira Salta, tu radio le da la hora, 2 horas 59 minutos" (840,011). JE
870	6.12	0548	HCHY2 R Cristal, Guayaquil brukar vara svår att få fram tydligt men nu jättebra med musik och id "Radio Cystal tu consiste companero". (869,984). JE
890	6.12	0600	HJCE R Continente, Bogotá med Todelar-id. JE
890	6.12	0548	HJPM Caracol, Santa Marta med sport och "desportescaracol.com". Inga Galeón-id åtminstone nattetid. JE
920	6.12	0129	YVQX R Nueva Esparta, Porlamar fortsätter dominera den här frekvensen. JE
970	6.12	0600	HJCI R RED, Bogotá RLH
1010	6.12	0400	HJCC Acuario Estéreo, Bogotá. Mycket splatter från 1008. JE
1020	6.12	0530	HJFQ RCN, Pereira kom fram starkt här. Tidigare på natten mest R Reloj. JE
1020	12.12	0606	YVTW R Alegría, Chivacoa ett mkt svagt "Alegría" och dessförinnan stark mx "Volare" det gamla italienska örhänget. (Reloj oftare!) HM

- 1030 6.12 0600 HCRF2 R Ecuantena, Guayaquil varvade med RCN Cali när splattret på denna svåra frekvens inte var helt öronbedövande. Inget id men en promo som HK känner igen och är unik för stationen. ”Stationen drivs av den brasilianska Igreja Universal precis som Radio Ideal i Venezuela 1130 och Radio Buenos Aires 1350”, påpekar Henrik Klemetz. JE
- 1040 6.12 0559 HJAI R Tropical, Barranquilla upp en liten stund. Någon av Colmundo-stationerna dominerade dock. JE
- 1080 6.12 0532 HJAX La Voz de Nostalgia, Medellín ensam den här tiden. JE
- 1080 6.12 0546 HJJF R Eco, Cali med ett par olika id och musik som var rejält stark tidvis. JE
- 1100 6.12 0400 HJCN BBN, Bogotá “presente la buena notivias de hoy”. JE
- 1190 6.12 0526 HCDF2 UCSG, Guayaquil starkare “än vanligt” och med oväntat program – popdängor som “Bad Girls” m m. Här förtjänas också en rättelse i loggen från senast.där jag felciterade HK beträffande användande av “espacio publicitario; “Denna station använder sig av en s k “espacio publicitario” ungefär som man gör i Argentina. I Colombia, Venezuela gör man det inte.” JE
- 1250 12.12 0700 HJCA Capital Radio, Bogotá ”Al servicio de deporte” RLH
- 1270 6.12 0530 HJAR La Cariñosa, Cartagena.. Ytterligare två stationer som spelade musik här också, men dem fick jag inte fram i splattret från DLF. (1270,029) JE
- 1290 6.12 0558 OCX1Q RPP, Juliaca. Lokalt id med fm-frekvenser för Juliaca och El Altiplano enligt HK. Fram med ganska stark signal trots att det inte alls vara några Perukonditioner. (1289,983). JE
- 1300 12.12 0435 HJOG LV de las Antillas, Cartagena RLH
- 1310 6.12 0530 HJJZ Aviva2, Bogotá var rejält stark här. JE
- 1320 6.12 0300 HJNV La Cariñosa, Girardot “La Cariñosa Girardot 13-20 AM”. JE
- 1350 18.12 2342 R Santa Beatriz, Cusco verkar vara igång körde med slogan "La Mas Grande" och lite murrig mod. (1350.014). Sim
- 1360 6.12 0532 HJUO Oxígeno, Cartagena “Oxígeno 13-80 AM Oxígeno”. Nu “nästan rätt” på (1359,998). JE
- 1390 6.12 0530 YVZA Fé y Alegría, Caracas ensam på frekvensen. Annars har det mest varit Lumen här denna höst när det gått Venezuela på 1390. JE
- 1450 6.12 0501 HJNL La Cariñosa, Manizales med inslag av Radio María, Caracas. JE
- 1470 6.12 0213 HJII R Popular, Medellín gick lite en stund denna natt. (1469.877). Sim
- 1560 6.12 0601 HJXZ Santa María de la Paz Radio, Medellín tillsammans med en uppstickande men fadande Adventista. JE

Oid/Tent Mexiko, Centralamerika, Västindien och Sydamerika

- 1300 6.12 0315 OID, pratade om evenemang i ”Ciudad de Maracaibo” Kan det vara YVNS R Reloj? RLH

Vi tackar HS för nedanstående logga. Kommer fån KFJB Marshalltown IA-1230 kHz

✉ Från e-posten

Jan Edh 14.12.2015:

Det blev en natt klart över genomsnittet och bättre än förväntat i torpet, 5-6/12.

Huvudsakligen Colombia/Venezuela/Puerto Rico/Cuba, men också överraskningar i form av ett par Peruaner men också från Guayaquil. Allra bäst var det en timme mellan 05.30 och 06.30 UTC.

Den morgontopp som kan förväntas mot 08 UTC den här årstiden uteblev däremot helt nu också.

En dålig natt, 11-12/12, följdes av en liten öppning på övre delen av bandet mot Västindien, men som helhet hade störningen som slagit till "förstört" ganska ordentligt. Signaler dök upp "från intet" men försvann dessvärre i de flesta fall lika fort.

20.12.2015:

En riktigt God Jul och Gott Nytt År vill jag önska alla ARC-are och speciellt vill jag naturligtvis vända mig till redaktörerna och tacka för ännu ett år av fantastiskt jobb för oss. Vare sig konditioner eller tiden har givit anledning till någon lyssning senaste veckan, men jag hoppas jag ska hinna med ett besök i Fredriksfors innan jul.

Stefan Wikander 18.12.2015:

Lite mera från stugan. Ibland stunder med många stationer men en stund senare är det bara domanter och knappt det och dessutom svåra splash. Oroligt i atmosfären får man skylla på. Ingen dagtidsex alls utan allt försvinner efter soluppgång och inget har kommit tillbaka fram på förmiddagen. Vi får önska en God Jul och ett Gott Nytt År.

Jan Oscarsson 18.12.2015:

Bidraget denna gång är QSL-betonat men nu ska det faktiskt bli lite nytt DX av också under Jul- och Nyår då jag och Rolf Åhman tröskar mellanvågen hos Bosse i Furuögrund. Vad månade höras när vi startar nu 19.12 med 2 inkommande CME och allt? En Iran-logg utlovas till nästa Eko om inte annat! God Jul och Gott Nytt År till alla MV-freaks önskar JOB

20.12.2015:

Jag lägger till ett litet PS på mitt bidrag häromdan då det kom ett rasande trevligt QSL från KHAC-880 sent igår, lördag kväll! Ett av de roligaste fynden hittills från PAX109. QSL-illu bifogas och till alla Eko-läsare kan vi nu alltså även säga Ya'at'eeh Keshmish!

Hasse Mattisson 20.12.2015:

HM har fått en julkhälsning från sin gode vän Tony Lopez, WVBF:

"HI HASSE, THINGS ARE GOING WELL AT 5,000 WATTS. SOON TO HAVE STRONGER NIGHT TIME POWER. I THINK OF YOU AND ALL THE FINE MEN I MET IN SWEDEN 1 AND 1/2 YEARS AGO, THAT WAS A GREAT 5 DAYS...

SENT YOU A HOLIDAY CARD 3 DAYS AGO AND I HOPE YOU LIKE IT. I WISH I COULD VISIT YOU AGAIN OR GET YOU TO VISIT THE USA. PLEASE HAVE A GREAT HOLIDAY SEASON. MAY GOD BLESS YOU AND ALL THE MEMBERS OF YOUR CLUB, YOUR FRIEND TONY LOPES, WVBF 1530 AM"

Hans Östnell 20.12.2015:

Har ingen logg att bidra med denna gång, tyvärr. Har inte blivit någon lyssning alls i december, eftersom vädret här uppe vid Barentskusten har gjort det omöjligt för mig att ta mig ner till husvagnen i Komagvær. Istället har en hel del tid gått till att lyssna igenom gamla inspelningar, samt att skriva rapporter och follow-ups. Det har renderat i en hel del trevligheter, såväl via e-post som via "snigelposten". OA har fått sig en laddning att bita i. Största överraskningen är nog att KFBX Fairbanks AK på 970 kHz verkar ha börjat svara igen. Har väl skickat sisådär femtielva rapporter och f/up's, och nu kom det minsann ett trevligt svar, med ett fint PDF-kort på en rapport från 2012! Kan vara läge att skicka en ny rapport eller f/up för de som fortfarande saknar KFBX i pärmen, således. Man vet ju aldrig hur länge svarsviljan varar, hi!

Ber att få tillönska redaktionen och alla ARC:are en synnerligen God Jul och ett Gott Nytt År!

Håkan Sundman 20.12.2015:

Bifogar igen en laddning logos för MV Eko. Fritt fram att förstora eller förminska för lämplig spaltfyllning. Passar på att önska redaktionen och medlemmarna God Jul och Gott Nytt DX-år 2016!

Jorma Mäntylä 20.12.2015:

Översänder QSL-kopia från Myanmar. Kvinnan i den nedre bilden kanske tror att hon arbetar vid Grönlands Radio eller KBRW Barrow? God Jul och Gott Nytt År!

Torolf Johnsson 20.12.2015:

Tack för det gångna året och för det utmärkta arbetet som ni redaktörer bidrar med. Inte bara bulletinen utan även snabb hantering av t ex WRTH utgivningen. Toppen! God Jul och Gott Nytt År!

Rolf Larsson 21.12.2015:

Här kommer några tips från mig. Jag har lyssnat vid ett par tillfällen i december, men jag har inte haft så mycket tid med efterarbetet. God Jul!

Kai Mauseth 21.12.2015:

Conds. har vært elendige og Smøla er delvis nede fortsatt, så derfor bare et par tips denne gangen. Håper på snarlig reparasjon av Smøla SDR-ene og bedring i condsen i jula. Ønsker alle en riktig God Jul og Godt Nyttår!

ARC

SEKRETERAREN MEDDELAR...

ARC-SWB konvent 2016

Till våren väntar ett nytt ARC/SWB-konvent, denna gång på Södra Vätterbygdens Folkhögskola i Jönköping. Vår medlem GL har välvilligt ställt upp för att göra detta möjligt. En preliminär inbjudan till konventet hittar du i detta nummer. Gör en notering i din agenda för helgen 23-24 april redan nu så kommer inget annat emellan.

WRTH 2016

I tisdags i förra veckan skickades WRTH 2016 ut till alla ARC:s beställare. I de böcker som skall passera flera postsorteringsanläggningar lade BE i ett äldre visitkort från Morokuliensändningarna om något skulle hända paketet på vägen. Förra året försvann ett paket på sin väg och det tog 1 månad innan posten hittade det. Nu kan de ringa mig direkt. Vi återkommer med alla uppgifter efter helgerna.

EDXC 2016 i Manchester, UK

Denna årliga konferens kommer nästa år att hållas i Manchester under tiden 9-12 september. Från ARC är preliminära besökare BE och HM, kanske någon mer?

Lödpenna som inte kräver elektricitet

Har under många år haft behov av en lödpenna som man kan använda på ställen utan elektricitet. Har säkert haft 5 olika tidigare och alla har varit mer eller mindre undermåliga.

Så hittade jag denna på Jula. I en elegant plåtlåda och för lite drygt 400:-. Denna lödpenna är i en klass för sig. Lätt att reglera, lätt att löda med. Precision i alla reglage.

Ett tips vid användande av alla gaspennor, de blir snabbare uppvärmda om man efter tändningen har dem stående med spetsen uppåt. (Stefan Wikander)

Olle Alm, Timotejvägen 14, SE-341 38 LJUNGBY
Tel: +46-372-14179; e-mail: o.alm@telia.com

Ett rekordartat antal bidrag den här gången! Er red bockar och tackar. Ett särskilt tack till er som bidrar regelbundet och inte samlar på hög över en längre period. Alla tillönskas de vanliga hälsningarna inför den kommande helgsäsongen.

Algeria

891 Strong open carrier on 891 kHz at 1500 via Spain remote receiver, so probably Algeria soon to start with renovated equipment. (Mauno Ritola, WRTH fb group 9.12.2015)

Europe

Next closures on LW and MW December 31st 2015, frequency and country:

549 D, 603 F, 711 F, 756 D, 864 F, 1179 D, 1206 F, 1242 F, 1269 D, 1278 F, 1377 F, 1404 F 1422 D, 1440 LUX, 1494 F and 1557 F.

(Sergio Sarabia via Ydun's Medium Wave Info 30.11.2015)

Ydun comments:

Sergio mentioned, that RTÉ 252 kHz will close down on January 19th, 2016, but I am not sure that is correct. My latest information concerning 252 kHz is, that the transmitter will be kept on air until at least 2017.

The LW service of RTE will continue until 2017, with reduced broadcast time. These are the latest news. There has also been a survey about the listening of 252 kHz (the news about it and the survey link are on <http://www.irishtimes.com/life-and-style/generation-emigration/survey-do-you-listen-to-rté-s-longwave-service-1.2397407>) and a website has been created against the stop of the transmissions, which is updated with the news about it (<http://savertelongwaveradio.com/>).

(Giovanni Ricci, Ydun's Medium Wave Info 3.12.2015)

162 kHz should stay active until 31/12/2016, as Radio France stated.

1440 The Luxembourg masts are to be demolished as the broadcasts stop

<http://www.lesentiel.lu/fr/news/luxembourg/story/L-tat-va-racheter-le-site-de-Marnach-19784995> and the ground on which they were used to stay will be sold in 2016.

(Giovanni Ricci, Ydun's Medium Wave Info 3.12.2015)

Germany

Local transmission from American Forces Network Benelux:

American Forces Network Benelux has a 1 kW transmitter in Mönchen Gladbach on 1143 kHz transmitting the Eagle program. However they have a local SHAPE Benelux-program between 1600-1700 UTC Monday to Friday. (Bengt Ericson, ARC)

1107 AFN - Counting down to the closure of most German medium wave stations, it might be worth noting, that AFN Bavaria is still active on 1107 kHz from Vilseck. The station "serving America's best" was heard this noon in Nürnberg (some 60 km west of Vilseck) on a car radio.

(Dr Hansjoerg Biener via Ydun's Medium Wave Info 14.12.2015)

Deutschlandfunk has just launched a site reporting about their closure of mediumwave transmissions on 31 December 2015: <http://www.deutschlandfunk.de/abschaltung-mittelwelle.2571.de.html> Final sign off announced to around 2258 UTC on December 31.

(Harald Kuhl via Ydun's Medium Wave Info 16.12.2015)

Ofcom News

Ofcom receive 27 applications for South/South East England18 November, 2015

Ofcom has received 27 applications from community radio groups wanting to operate a station in the South/South East, outside the M25. They had originally invited applications as follows:

“Ofcom is inviting applications for services operating on FM and AM throughout this region – we are not excluding any areas from the applications process on the basis of frequency availability as we have done in the past for other areas. We offer some guidance on availability of suitable frequencies in different parts of the south east, explain the importance of the transmission site information given in the application, and set out how we will assess spectrum availability on receipt of applications.”

None of the details published show whether applications have been made for the AM or FM band. Some areas have more than one application, such as Andover, Brighton and Southampton. Amongst the proposals are Wey Valley Radio, Gaydio Brighton, BFBS Brize Norton and Angel Radio. Ofcom usually announces the winners within 12 months.

BBC News

BBC World Service Receives £85m to Enhance Services23 November, 2015

The government is to invest £85 million a year in enhancing BBC services around the world including in Russia, North Korea, the Middle East and Africa.

The money is to help "build the global reach of the World Service" to half a billion people and "increase access to news and information". Director general Tony Hall said he "warmly welcomed" the announcement.

The government will provide £34m between 2016-17 and £85m a year from 2017-18 for digital, TV and radio. The next review of this funding will be in 2020.

"This new funding is the single biggest increase in the World Service budget ever committed by any government," said Lord Hall. "The millions announced today will help the BBC deliver on our commitment to uphold global democracy through accurate, impartial and independent news reporting. "The World Service is one of the UK's most important cultural exports and one of our best sources of global influence. We can now further build on that."

He added: "The funding will also help speed us on to our target of reaching half a billion people globally." The BBC currently reaches 308 million people worldwide, and its goal is to reach 500 million people by 2022.

Announcing the new funding in its document the National Security Strategy and Strategic Defence and Security Review, the government said: "The BBC World Service reaches into some of the most remote places in the world, providing a link to the UK for individuals and societies who would otherwise not have this opportunity. (*BBC News*)

Commercial Radio News

Government to review Commercial radio regulation15 November, 2015

Ed Vaizey has proposed to review a number of key regulation areas for commercial radio. Commercial radio body Radiocentre has welcomed the plans, which were communicated to CEO Siobhan Kenny this week.

In the letter, the Minister highlights the first phase of this work that will be undertaken by Ofcom and Government to consider the value of continuing with music formats and detailed localness requirements in their current form.

This announcement comes as more digital radio stations arrive, which are not subject to the same range of regulatory requirements as traditional radio services on FM or AM.

Vaizey wants Ofcom to look at options for a simplified radio content regime that will work across analogue and digital radio. He questions if there is a need/desire in the longer term to retain a regulatory distinction between community radio and small-scale commercial radio if both types of service are going to be carried on the same multiplexes.

Siobhan Kenny, CEO of Radiocentre says: “UK radio is a good shape with an unrivalled range of services available for listeners. But it also faces an unprecedented challenge in the battle for listeners and advertisers, particularly from online services that are largely unregulated.

“If commercial radio is to continue to support its fantastic mix of local stations and national brands, then it is right to take a fresh look at the regulation. We look forward to working with Government and Ofcom to try and help level the playing field so radio stations of all shapes and sizes have the flexibility they need in a digital age

Following the completion of Ofcom’s work, DCMS will assess the options in detail ahead of a consultation, which Ed Vaizey hopes to be in a position to publish in late-spring of 2016. (www.radiocentre.co.uk)

First football deal secured for talkSPORT 223 November, 2015

talkSPORT and talkSPORT 2 will broadcast live radio commentary on UEFA EURO 2016 and 2020 matches. The stations will broadcast all 51 matches live from the opening game on June 10 through to the final on July 10, as it signs as an official radio station for the competitions in the UK.

Calum Macaulay, talkSPORT Managing Director, said: “UEFA EURO 2016 will be the first time that four nations from the British Isles have been involved in a major tournament since 1958, so it’s a massive opportunity for our commercial partners to engage with a mainly male audience next summer. Having talkSPORT 2 up and running will allow us to broadcast the final group games across either station and give listeners their choice of matches. Our coverage will include over 500 hours on location in France with the best sports broadcasters in the business.

“As with our coverage for previous tournaments, we’ll be going wall to wall with our output, on air, on line, digitally and in print. It is a major investment for us and to broadcast both the 2016 and 2020 tournaments signals our continued commitment to invest in live rights to grow audiences for our commercial partners.”

talkSPORT 2 is due to launch in March 2016 and will be available on national DAB, online and through the talkSPORT 2 app. (www.radiotoday.co.uk)

Student Radio Awards 2015 – full winners16 November, 2015

Smoke Radio, the radio station for the University of Westminster, has won the Best Student Radio Station award at the Student Radio Awards 2015.

Big winners from the evening include URN, which took home four Gold awards, and University Radio Bath which got two along with Leeds Student Radio and URY. The rest of the winners won one each, they are Xpress Radio, Spark Sunderland, RaW 1251, Fly FM and BIRSt Radio.

The Student Radio Awards are supported by BBC Radio 1 and Global, and had special guests such as Ben Cooper, Ashley Tabor, Richard Park, Mark Goodier and Steve Lamacq giving out the awards.

(www.radiotoday.co.uk)

Community Radio 10 years old27 November, 2015

Community radio, which offers thousands of volunteers the chance to get involved in broadcasting across the UK, is now ten years old.

The last decade has seen the number of community radio stations increase from just a handful to more than 230 stations, each reflecting the local needs and interests of its audience.

Community radio is a not-for-profit sector, largely run by an army of 20,000 dedicated volunteers, who collectively work for around 2.5 million hours every year to bring original programming and locally-made content to listeners around the country.

Stations usually broadcast to everyone in a geographical area, but around a third tailor their output to serve a particular community— such as older people, or an ethnic or religious group.

Community radio stations typically cover a 5km radius, broadcasting on average 93 hours a week of original output. Many reflect a diverse mix of cultures and interests in their region. Stations also work within their community to offer a range of benefits such as training opportunities, work experience, local news and information resources.

Susan Williams, Community Radio Manager at Ofcom, said: "Community Radio stations have deep-rooted connections in their communities. Local people run these stations, producing content to inform and entertain their local community and offering real benefits like radio training.

Ofcom launched the first phase of community radio licensing back in September 2004 and received 200 applications for the first licences. The first station to launch after this was The Eye in Melton Mowbray, which was recently honoured for its long-standing contribution to its local community.

The Eye has doubled its workforce in 10 years, with all staff volunteering their time. Other stations reaching their 10-year milestone in the coming weeks include Unity 101 in Southampton, Awaz FM in Glasgow, Angel Radio in Havant, Cross Rhythms City Radio in Stoke on Trent, and GTFM in Pontypridd.

Community radio provides a voice for communities across the UK stretching from the Scilly Isles to the north of Scotland. Ofcom remains committed to helping it grow into its second decade.

Earlier this year Ofcom began trialling a new technological approach which could provide a more affordable way for smaller stations to broadcast on DAB digital radio, ensuring UK listeners could benefit from hundreds more local and community radio stations in the future. ([Ofcom web site](#))

Dales Radio on the air11 December 2015

Dales Radio has started tests on 936 kHz from Hawes with 150 Watts. This new community station for the Yorkshire Dales will use several FM frequencies as well as 936 kHz. MW tests observed since around 5 November. ([Nick Rank, David Thorpe, BDXC-UK](#))

RAJAR News

BBC Radio 4 Extra UK's biggest digital-only station1 November 2015

The Station reports 12.6% rise as Radio 5 Live Sports Extra also posts record ratings.

Hancock's Half Hour is one of the most popular shows on Radio 4 Extra, the BBC digital station reported a 12.6% rise in listeners in the third quarter of the year.

BBC Radio 4 Extra has passed 6 Music to become the biggest digital-only station in the UK.

The Radio 4 spin-off station reported a 12.6% rise in listeners to hit 2.2 million, surpassing 6 Music, which also managed a record quarter, according to the latest official listening figures from Rajar.

"I am delighted that the programmes we've chosen are capturing the imagination of more and more listeners – from comedy classics to the best and most exciting acts at the Edinburgh Festival Fringe and imaginative new hits from around the world such as the TED Radio Hour," said Gwyneth Williams, controller of Radio 4 and Radio 4 Extra.

BBC 6 Music, the first digital-only station to pass the 2 million weekly listeners mark, reported a record audience of 2.18 million, up 6.5% quarter-on-quarter.

Radio 5 Live's digital spin-off, Sports Extra, also achieved a record, with listeners rising 6.3% to 1.7 million in part thanks to the Ashes series between England and Australia.

Radio 1 spin-off 1Xtra also surged by 19.9% to 1.15 million, the second highest audience the station has reported.

Absolute Radio 80s retained its position as the biggest commercial digital-only station, despite losing 2% of listeners quarter on quarter to 1.57 million. There was less cheer for Kiss spin-off Kisstory, which saw its audience fall by 10.4% in the third quarter to 1.3 million.

A total of 41.9% of all radio listening is now via digital platforms, up from 37.8% in the same quarter in 2014, the lion's share on digital audio broadcasting (DAB) radio.

The majority, albeit only just, is still on analogue AM or FM, accounting for 50.4% of listening. A further 7.7% of listening is "unspecified" by respondents to the Rajar survey.

LLE-4 Radio Northern Star – 1611 kHz

Your ref.:

Date: 14.12.15

Dear Bengt Ericson,

Thanks so much for your interesting reception report! This is highly appreciated! Congratulations on a fine catch!

This will verify your reception as correct of Radio Northern Star on December 13th, 2015, 2100z-. You were listening to a transmitter test from LLE-4 Radio Northern Star over LKB LLE Bergen Broadcasting Station, Erdal, Norway, on 1611 kHz, 186 metres in the MW band. Please take this letter as our QSL.

This site was formerly used by the NRK for National and Regional broadcasting over LKB on 890 KHz, and local broadcasting over LLE, 1115 kHz. It now houses some refurbished vintage MW, SW and FM transmitters plus others we hope to put on the air later.

The English and Norwegian announcements you heard were by two of our American announcers Howard and Susan, and myself.

This is a licensed station and trial broadcast operation of our international broadcasting project which also has a web station started in 2012 that may be found on www.northernstar.cc. We have simple studio facilities in Straume, Norway.

The current license permits us to send out identifications and test tones. Next year our plan is to get a RSL (Restricted Service License), but nevertheless full broadcasting license.

Our strategy is to promote our project on this "Top of the Dial" frequency and at a later stage take into use a lower frequency already licensed to our site with higher power and better daytime coverage, although the skywave capabilities of 1611 are wonderful!

We are looking for sponsors, and for franchisees to operate domestic versions of The Northern Star, such as in Sweden, and on Norway's new DAB+ muxes.

So far we have also been heard in the Shetland Islands, England, Denmark, Sweden, Finland, Germany, and Austria. The listening record at this moment is held by Bjarne Mjelde in Kongsfjord, Norway, 1574 kms from our tx-QTH Grensedalen 59, Erdal, in Askøy Municipality, Northwest of Bergen, the capital of Western Norway. (Coordinates: 60°26 56,728 N 5°12 59,206 E)

We are using an ex-Marine Skanti TRP-8250 HF 250 Watts remotely controlled transmitter, able to operate at @65 watts in AM mode and 250 watts USB through an inverted "V" tuned to this frequency. We may also use our refurbished "Comrod" antenna on the site which currently is used on and tuned to 1314 kHz. We are also occasionally heard on LLE-3 5895 kHz.

Other transmitters on site Foreningen Bergen Kringkaster(FBK):

LLE-3 5895 kHz 200 watts USB 50 watt AM, Yaesu FT-950-tx. Antenna: Inverted V.(Different from the 1611 antenna.)

LLE-2 1314 kHz 250 watts, usually 150 watts Western Electric (WE 451A-1) tx from the late 40s, brought back into life after it closed as LLU for NRK Odda 1466 kHz over 36 years ago. Antenna: Comrod-antenna. Presently inactive due to tx fault.

LLE-FM 103,8 mHz FM 100 watts, Itelco-tx. Antenna: Omnidirectional.

The frequency of 1611.0 is now a Norwegian broadcasting frequency as the spectrum was formerly used by LGQ/LGB for its LGF transmissions from Bore and later Vigrestad. As you know, it was also used by Vatican Radio. We hope unlicensed transmissions on this channel will move away, although we recognize the skills and talents of many such operators, and wish them well. We are in favour of "The X-band" being used for small-scale legal broadcasting.

Stay tuned for more tests from LLE-4 1611 in the near future, these may also be in USB mode.

KTMT Medford OR – 580 kHz

Hello Jan,

Yes, that was indeed us!!! It was a thrill and a big surprise to receive your wonderful message, so thank you for reaching out. Amazing that you could hear us all the way from Sweden without going online, which seems to be the common way of doing it in this day and age!

I could certainly identify our station tag for KTMT-AM by hearing your recording, despite the static.

We have since altered our station branding slightly, so now we have 96.1 FM/580 AM ESPN Radio as part of the main station ID. That effort was completed in mid-November. It sounds a lot better since the change, and there were a ton of old imaging files that we were able to remove from our system. As a matter of fact, the person you heard on the station ID is no longer working here!!! Consequently, that station ID is no longer airing.

I don't know how long you were able to tune in for, but our station features a mixture of American sports talk programming as well as special broadcasts of American football, basketball, baseball, and even soccer (which of course, is your football). In the fall we started doing games for St. Mary's High School, a small private school in Medford of about several hundred students ages 11-18. Medford is a town in Oregon just north of Ashland, and our "Radio Medford" headquarters are located in Medford as well. We only have Ashland in the station ID because that's where our transmitters are located! ☒

Again, very nice to hear from you. All of us from Radio Medford and our station wish you and your family a wonderful Christmas in turn. Hope you are able to hear more of us in the future so that we can build a following in Sweden!

At the very least, with all of the craziness in the American news going on right now, it's nice to have the opportunity to reach out past our borders. Feel free to contact me anytime with any future comments you might have.

Happy holidays from the United States.

Max Milander
Program Director, 96.1 FM/580 AM ESPN Radio
Medford, Oregon, USA

WTAD Quincy IL – 930 kHz

Hello Rolf,

Greetings to you from Quincy Illinois. Yes I can confirm the signal you recorded on October 27 was our station.

It was a promotional spot for one of the shows broadcast on WTAD at 4am called This Morning with Gordon Deal.

It's my voice that says, "Gordon Deal Tuesday morning at 4 on Talk Radio 930 WTAD.

This past summer on July 25, 2015 WTAD radio station celebrated 90 years of broadcasting here in Quincy. It's one of the oldest radio stations here in the U.S.

I have been working here since January 25, 1990 and in radio broadcasting since 1980.

I have received these long distance reports in the past. It's always amazing to think you can hear the WTAD air signal in Sweden.

Happy Holidays to you!

KHAC Tse Bonito NM – 880 kHz

Thanks so much for sending us your report! That recording is in fact our station and it is actually my voice that you are hearing. My name is Joe Cook. I am the Station Manager at KHAC. The part of the Legal ID that was inaudible was “Tse Bonito, Window Rock, Gallup”. We are located in Tse Bonito, New Mexico which borders Window Rock, Arizona, the capital of the Navajo Nation. My wife, our 9 year old son and I moved out here from New Jersey this past March to serve as missionaries with Western Indian Ministries in their Radio Department. Previously, I spent many years working for Cruisin’ 92.1 WVLT, an Oldies station in Vineland, New Jersey and prior to that I worked at 1360 WNJC in Washington Twp, NJ, where I started out in radio back in May of 2006. I’m so glad that you were able to tune in and get our signal! Must have been just the perfect conditions on that day! A little background, KHAC went on the air in 1967 and has been serving the Navajo Nation ever since! We also operate two other stations, KWIM 104.9 which is also located in Tse Bonito, but licensed in Window Rock, and finally KTBA 760 AM in Tuba City, Arizona. Tuba City is located about 2 ½ hours from here. Me and another guy each drive there twice a month to broadcast live for a segment we call Tuesdays in Tuba. There is also a live program on Saturday mornings, but otherwise that station is a simulcast of KWIM. Once again, it was really great hearing from you and I hope that you and your family have a very Merry Christmas or, as the Navajo say, Ya’at’eeh Keshmish!

Take care,
Joe Cook

KFBX Fairbanks AK – 970 kHz

Fairbanks, Alaska USA
970 kHz AM 10,000 watts

Reception Report Confirmation

To: Hans Ostnell, Vardo, Norway

QSL your reception of KFBX on: October 20, 2012

Date issued: July 24, 2015 by: Scott Diseth, Chief Engineer

Hans Ostnell
Bodtkegata 10
NO-9950 Vardo
NORWAY

July 24, 2015

Mr. Ostnell,

This letter and electronic QSL card will confirm your reception of KFBX on October 20, 2012 at 10:37 UTC.

Congratulations on hearing our signal and thanks for sending the recording. Our ID was very clear on it. It's interesting to note that your home listening location is 6 degrees latitude north of Fairbanks and only 1 degree south of Alaska's northern most city of Barrow.

KFBX operates at 970 kHz with a power of 10,000 watts. Our antenna pattern is non-directional during the day and night. We operate twenty four hours a day, seven days a week. Our transmitter is located on Farmer's Loop Road 3 miles northeast of Fairbanks and 125 miles south of the Arctic Circle. I've attached a picture of our transmitter site.

Thank you for your report. We always enjoy hearing from our DX listeners. I'm also a radio amateur with the call of KL7N. I'll be listening for you on the Ham bands. I wish you the best of luck in your DX endeavors.

Sincerely,

Scott Diseth

KLAV Las Vegas NV – 1230 kHz

Jan,

I can give you a confirmation on the reception of KLAV, 1230. Caliente is our slogan, and 98.9 is the translator that is associated with that station. Bo Olofsson also received that station in Sweden at almost the same time. Must have been an interesting Ionosphere that night.

This is to confirm your reception of KLAV, AM 1230.

KLAV was running 1 KW at that time into a non-directional single stick tower over a poor ground system. We just recently moved it onto one tower of a triplexed array with KWWN (1100) that has a far better ground system so should do much better. I'm a 71 year old Certified Professional Broadcast Engineer who is also an Extra Class Ham, WB0KSW. I have been an occasional AM broadcast band DXer.

Bill

KOTA Rapid City SD – 1380 kHz

From: **Ted Peiffer** <Ted.Peiffer@dberadio.com>
Date: 2015-12-01 16:22 GMT+01:00
Subject: RE: Reception of AM 1380 KOTA in Arctic Norway
To: Hans Ostnell <hans.ostnell@gmail.com>

Dear Hans,

Thank you for the nice e-mail and I'm glad to hear we have a listener in Norway. The audio clip you attached is indeed from KOTA. We have five stations here, including KOTA, as well as four FM's. Rapid City is a city of approximately 70,000 people located in the Black Hills of western South Dakota. It is most famous for Mount Rushmore, the mountain carving depicting four of our presidents, as well as the ongoing huge mountain carving of Crazy Horse, a legendary Lakota Indian leader. Our total coverage area encompasses about 150,000 people.

Derek Stone is our program director for KOTA and also the host of our morning show. He talked about your letter on the air this morning, so you were part of the show today.

Thanks again for notifying us and good luck as you add to your impressive list of radio signals you have captured.

Best regards,

Ted Peiffer

General Manager

WLEC Sandusky OH – 1450 kHz

Hi Jan:

I am pleased to Verify your Reception of our WLEC 1450 based on your recording.

Our WLEC operates with 1000 Watts both Day and Night from a non-directional Antenna located about one mile from the shore of Lake Erie at Sandusky, Ohio.

We use a BE AM1A transmitter into a 54 meter high tower.

WLEC began broadcasting in December 1947. We are owned by BAS Broadcasting which operates 9 radio stations in north Ohio.

WLEC programs light Rock music called “Timeless” and many sporting events.

I have attached a Coverage Map and photos of the building we share with WCPZ(FM) and WMJK(FM).
