## Hej!

Knappt har Halloween förevarit förrän det är dags för Black Friday, en ganska ny företeelse som även den kommer från Nordamerika. Självklart hänger affärskedjorna på, det gäller ju att sälja. I USA är det landets största shopping- och readag. Dock kan man förmoda att covid-19 i år lägger en viss sordin på det hela.

Single's Day är en annan företeelse, men den kommer österifrån, från Kina. Syftet är dock detsamma.

**Dekaler och logotypes** har vi denna gång fått från OJS, SM och TN. Flera är välkomna! Tnx!

### ***I detta nummer förutom de fasta avdelningarna:***

- \* Bokrecension: Kimlandia – BE
- \* ON4UN Silent Key – Marleen Devoldere via BIH
- \* Coverage map som JOB fått från WVOK Oxford AL-1580 kHz (sistasida)

### ***Nostalgi-QSL:***

- \* Voice of the Arab Emirates, Abu Dhabi-729 kHz – Kanwar Sandhu
- \* Israel Broadcasting Service, Haifa-1025 kHz – UQ/JOE

- \* Stichting Amsterdamse Draadloze Omroep, Amsterdam-1250 kHz – TL
- \* Radio Tees, Stockton on Tees-1169 kHz – RFK
- \* Radio Caribbean International, Castries, St Lucia-840 kHz – RFK
- \* EAK22 Radio Popular de Ciudad Real-1277 kHz – TL

### ***Nya QSL:***

- \* A3Z Tonga Broadcasting Commission, Niku'alofa-1017 kHz – JOB
- \* 4BU Bundaberg QLD-1332 kHz – SM
- \* WZON Bangor ME-620 kHz – JOB
- \* KLSQ Whitney NV-870 kHz – GL
- \* KVAK Valdez AK-1230 kHz – JOB
- \* KJOX Kennewick WA-1340 kHz – GL
- \* KHNC Johnstown CO-1360 kHz – GL

**LOGGEN**  
**All Times in MV-Eko refer to**  
**UTC unless otherwise stated.**

### Noteringar i loggen:

- JE** = Jan Edh, Hudiksvall, lyssnar-QTH i Fredriksfors  
**KM/H** = Kai Mauseth, Oslo, remote Holmestrand - Kiwi SDR til LA8UU. Antenna er en dobbel loop fra LZ1AQ (som har endel utstyr som kan brukes av mb-dx-ere også, tror jeg).  
**KM/S** = Kai Mauseth, Oslo, remote Smøla  
**OJS/A** = Odd-Jørgen Sagdahl, Trondheim, remote Andøya – 1000 m 305 grader + 1000 m 285 grader)  
**OJS/K** = Odd-Jørgen Sagdahl, Trondheim, remote Kongsfjord (Veines)  
**OJS/L** = Odd-Jørgen Sagdahl, Trondheim, remote Loran C (close to Berlevåg – 1000 meter 305 grader)  
**OJS/S** = Odd-Jørgen Sagdahl, Trondheim, remote Smøla (Kalvøya)  
**RFK** = Ronny Forslund, Svartsjö, lyssnar-QTH i Fredriksfors  
**RÅ** = Lisette Åkesson, Bjärred, lyssnat i sommarbostad vid Ringsjön  
**TBV/AND** = Tore B Vik, Mysen, rapporterer från AND-expeditionen  
**TNY** = Torgeir Nyen, Oslo. Stasjonene er hørt i Norge, enten på Lista eller på Etnebu, med antenner jeg/vi satte opp for de dagene vi var der.  
**TW/S** = Torgeir Woxen, Sørumsand, remote Smøla

 1512 9.10 2000 Jinan Gushi Guango, Jinan fint ID, uvanlig klar retningsvirkning av antenna på dette tidspunktet, og denne lå akkurat i riktig «gate» TNY

## Oceanien

567	10.10	1400	RNZ National, Wellington. OJS/K
657	10.10	1359	<b>Star, Tauranga.</b> Clear echo - so it must be two stations! OJS/K
657	10.10	1359	Star, Wellington. OJS/K
702	10.10	1400	Magic Talk, Auckland. OJS/K
729	10.10	1400	RNZ National, Tokoroa. OJS/K
756	10.10	1400	RNZ National, Auckland. OJS/K
801	30.10	1300	KTWG Hagåtña, Guam. Super signal! OJS/K
810	10.10	1400	BBC World Service, Auckland. OJS/K
819	10.10	1400	RNZ National, Tauranga. OJS/K
837	10.10	1400	RNZ National, Kaitaia/Whangarei. OJS/K
882	20.10	1300	Star, Auckland. OJS/K
918	10.10	1300	RNZ National, Timaru/New Plymouth. OJS/K
990	4.4	1730	<b>8GO ABC R Darwin, Nhulunbuy, NT.</b> A prime suspect but hard to know - but GHM knows ... "I have considered this one very carefully and can only conclude that I must verify your reception of: 8GO 990kHz Nhulunbuy @ 1730Z on 4th April, 2020. 8GO broadcasts at a power of 500W from our site at Gove at the far eastern end of Arnhem Land in the Northern Territory. Others have reported 8GO, but this is the first time I've been able to definitely verify it, so well done on a great catch." Worth the wait! OJS/K
1008	10.10	1400	Newstalk ZB, Tauranga. OJS/K
1062	28.10	1300	<b>4TI ABC Far North Queensland, Torres Strait. QLD.</b> While a lot of AUS was heard south of the border, this was the only interesting station that I could find. Graham says "4TI broadcasts at a power of 2kW from our site in the Torres Strait and is our most northerly transmitter. This is only the second time I've had a reception report for 4TI, so well done on another great catch!" I believe the first one was OM BM in October 2017. Viva Veines! UPDATE: Apparently this station has been heard at least 5 times in Finland, and confirmed by Graham already in 2009. OJS/K
1071	10.10	1400	RNZ National, Masterton. Too weak for report last time I heard it, but this time it should work out! OJS/K
1080	10.10	1400	Newstalk ZB, Auckland. OJS/K
1107	10.10	1300	Magic Talk, Tauranga/Rotorua. Amazing signal! OJS/K

1110	5.10	0800	KAOI Kihei HI. OJS/K
1116	10.10	1400	RNZ National, Nelson. OJS/K
1125	10.10	1400	Gold AM, Hawkes Bay. OJS/K
1215	10.10	1306	<b>Newstalk ZB, Kaikohe.</b> OJS/K
1233	10.10	1400	Magic Talk, Wellington. OJS/K
1278	10.10	1400	Newstalk ZB, Hawkes Bay. OJS/K
1296	10.10	1400	Newstalk ZB, Hamilton. OJS/K
1314	10.10	1400	RNZ National, Gisborne. OJS/K
1332	10.10	1400	Gold AM, Auckland. OJS/K
1341	10.10	1400	Newstalk ZB, Nelson. OJS/K
1413	10.10	1300	Newstalk ZB, Tokoroa. OJS/K

1458	10.10	1400	RNZ National, Westport. OJS/K
1494	10.10	1300	Star, Hamilton. OJS/K

## Nordamerika

- 540 16.10 0159 CBT Grand Falls-Windsor NL, "CBC Radio one, 5-40 in Grand Falls Windsor". A  
550 14.11 0659 WGR Buffalo NY kom igenom de tuffa QRM:en några sekunder och med ett id som räckte, men blir en kortfattad inspelning med tanke på splashen! RÅ

- 550 18.9 0300 **KCRS Midland TX.** I was sure this was KTRS-MO but had a very hard time getting "News Talk KCRS – Midland, Odessa – locally owned - an ICA Broadcasting station" to fit. The signal was not bad either, but after a couple of iterations I realized that it was this one! OJS/L  
560 15.11 0827 WGAN Portland ME. JM  
570 14.10 0258 CKSW Swift Current SK, "Inspirational music on CKSW on 5-70", mycket bra. A  
580 15.10 0500 KIDO Nampa ID. OJS/K  
580 10.10 0400 WTAG Worcester MA. OJS/A  
580 24.9 0500 CHAH Edmonton AB. Identifying itself at "My Radio 580 AM". OJS/A  
580 11.11 0459 CFRA Ottawa ON "News talk 5-80 CFRA" RLH

- 600 21.9 0300 **WCHT Escanaba MI.** "Newstalk 600 WCHT (Escanaba - Traverse City?) - it's 11 o'clock" followed by an EAS-test. OJS/L  
600 16.10 0329 KSNB Jamestown ND gav temperaturen till 37 grader och spelade "Jolene" med Dolly Parton. Kvinnlig DJ och inte bara musikslinga med ID:n och jinglar vilket tyvärr är alltför vanligt numera (men bra för den som jagar nya stationer). RFK  
600 12.10 0907 CKSP Vancouver BC. OJS/A  
600 16.10 0311 CJWW Saskatoon SK "Legendary country on CJWW" rekade Brick City Glass. RFK  
610 14.11 0129 WIOD Miami FL med fint id, men trodde jag hade hängt på annat. RÅ  
610 14.11 0900 KDAL Duluth MN. SGD  
610 12.11 0500 WVTN Columbus OH med fint ID i kamp med en LA. BOS  
610 14.11 1030 CHNL Kamloops BC, "Radio NL". SGD  
630 3.11 0715 KFXD Boise ID. After finding some other interesting stations this morning I was intrigued by this hip hop and R&B station that went up and down with CHED-AB. It was difficult to catch the announcements and even if I head "105.5" I did not understand it before I heard "Here is another one you won't hear on Miles 101 - This is Boise's all new Power 105.5". OJS/A  
630 21.9 0359 **KSLR San Antonio TX.** Apparently, MW-DXing is not good enough for the v/s ;-)"Thanks for the reception report and yes you did hear KSLR! The station broadcasts a Christian format with 5KW, day and night with a directional antenna. You should pursue amateur radio as you could then talk and listen all over the world!". Heard several times this fall. OJS/L  
640 28.9 0300 WOI Ames IA. OJS/L  
650 12.10 0400 CKGA Gander NL, mx //590 VOXM. A  
660 17.10 0600 WBHR Sauk Rapids MN. OJS/L  
660 11.11 0500 WFAN New York NY "Breaking news on WFAN" RLH

660 14.11 1030 CFFR Calgary AB "660 News" stark och stabil med trafikrapport BOS  
670 11.10 0500 KLTT Commerce City CO. OJS/A  
670 9.11 2358 WWFE Miami FL blandat med Rebelde men ett "La Poderosa" kunde uppfattas. Flera Rebelde också här som skapar ett eko och försämrar hörbarheten. JE  
670 11.11 0500 KBOI Boise ID tog över från Rebelde lagom till id "We are 6-70 KBOI Boise" RLH  
670 14.10 0300 WSCR Chicago IL "The Score" med sport förstås. RFK  
680 11.11 1553 KBRW Barrow AK //web TN  
680 30.9 0358 KNBR San Francisco CA. OJS/A  
680 11.10 0400 WRKO Boston MA. JM  
680 28.9 0300 KFEQ St. Joseph MO. OJS/L  
680 11.11 0500 CJOB Winnipeg MB "Global News Radio 6-80 CJOB" RLH  
700 14.11 0700 WLW Cincinnati OH kom igenom fint. Har ju USA:s klart vackraste antenntorn som finns med på deras QSL! RÅ  
700 14.11 1027 CJLI Calgary AB ".. on AM 700 The Light" och sen stilla musik. BOS  
710 16.10 0300 KXMR Bismarck ND, "Fox Sports 7-10". SGD  
710 11.11 0459 WOR New York NY "Your world on the Voice of New York – WOR" RLH  
710 14.11 1000 KIRO Seattle WA svagt ID men bättre sen BOS  
730 14.11 1035 CHMJ Vancouver BC berättade om alla trafik hinder i Vancouver BOS  
750 14.10 0300 WSB Atlanta GA med jingle "Atlanta's News and Talk." RFK  
750 5.11 2313 CBGY Bonavista Bay NL gjorde reklam för en pod. RLH  
760 22.10 0000 KDFD Thornton CO. OJS/K  
760 11.11 2100 WCHP Champlain NY. SGD  
770 22.10 0000 KATL Miles City MT. Very nice signal! OJS/K  
770 16.10 0300 KTTH Seattle WA, i sällskap med CHQR. SGD  
790 11.11 0600 KFGO Fargo ND "Broadcasting from the triple power of tower the mighty 7-90 KFGO" RLH  
790 20.10 0600 WTNY Watertown NY, med väder och id innan nyheterna. SGD  
790 10.11 0700 WAEB Allentown PA, med svagt id precis när övriga på fq hämtade andan. SGD  
800 17.10 0600 WVAL Sauk Rapids MN. OJS/K  
800 13.11 1938 VOWR St. John's NF med en god portion bra oldies. En mycket trevlig station att lyssna på. RÅ  
810 14.11 1000 KGO San Francisco CA, under Skottland. SGD

810 22.10 0000 **KBHB Sturgis SD.** Decent signal, main interference was super-clear CKJS-MB. Strong and alone after the news and for a while before powering down. OJS/K  
810 9.11 0801 **KYTY Somerset TX.** I don't know what to say ... except that it is a pretty good experience to hear a clear id without having any idea of the station and then checking the lists to find an exact match. The full id heard was "Star Radio - AM 8-10 - KYTY Somerset, San Antonio". A good example of the potential of the 1000-meter 305-degree antenna at And(g)øya! OJS/A  
810 22.10 0031 **KTBI Ephrata WA.** After hearing KFIO-WA 1050 at the top of the hour I thought I should check for this one. And around 00:15 UTC when KBHB-SD powered down I could hear the same Christian teaching by Chuck Missler on 810 as on 1050. Fortunately, the signal got better and better up to the ACN-announcement a little past the bottom of the hour. OJS/K  
820 11.11 0800 KUTR Taylorsville UT. SGD  
820 14.11 1100 KGNW Seattle WA, "8-20 AM The Word". SGD

- 830 14.10 0303 WCCO Minneapolis MN "Newstalk 8-30 – Minneapolis most listened station for news." RFK
- 830 3.11 0700 **WTRU Kernersville NC.** Great signal with "You are listening to the Truth Network ... This is AM 8-30 WTRU Kernersville, Winston-Salem, Greensboro, High Point. This is the Truth Network". OJS/A
- 830 22.10 0029 KUYO Evansville WY. Amazing signal the last half hour before closing! Company of WCCO-MN but also an interesting music station! OJS/K
- 840 11.11 0600 WHAS Louisville KY "News Radio WHAS" RLH
- 840 14.11 0300 WHAS Louisville KY med fint bokstavs-id på timmen. RÅ
- 840 11.11 0700 KXNT North Las Vegas NV, (.008). SGD
- 850 20.10 0600 WKNR Cleveland OH. SGD
- 850 12.11 0500 WKNR Cleveland OH dominant och bra vid ID. Annan SPT under. BOS
- 850 14.11 1029 KHHO Tacoma WA, "Black Information Network". SGD
- 860 10.10 0700 KNAI Phoenix AZ. OJS/A
- 860 14.11 1000 KTRB San Francisco CA. SGD
- 860 17.10 0500 CJBC Toronto ON, "Ici Radio Canada.....8-60 AM Toronto". A
- 870 12.11 0500 WWL New Orleans LA och Cuba istället för önskade NY. BOS

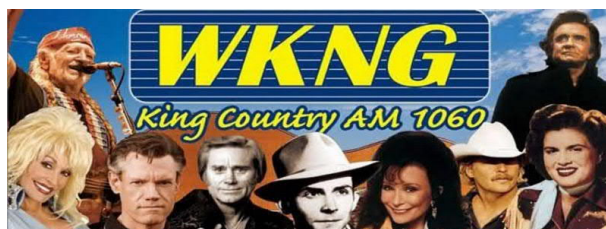

- 870 18.10 0401 WHCU Ithaca NY "97,7 FM, AM 8-70, News Talk WHCU" TNY
- 870 14.11 1000 KFLD Pasco WA, "NewsTalk 8-70 AM and 98,7 FM". SGD
- 870 13.11 2030 CFSX Stephenville NL med VOCM-id till mitt stora förtret. Trodde att de skulle kunna ha egna px vid denna tiden, men tji! RÅ
- 880 22.10 0033 **KJJR Whitefish MT.** This station has been on my "most wanted" list for a very long time. With the other stations heard at this time, I hoped that it finally should be possible! But with a monster signal from KRVN-NE relieved by an even more monster signal from CKLQ-MB it was very hard for anything else to come through. But then the perfect fade from CKLQ-MB gave room for a most welcome "Newstalk 8-80 and 107.9 KJJR ...". OJS/L
- 880 26.10 0402 KWIP Dallas OR. Very good signal! OJS/K
- 880 14.11 1034 CHQT Edmonton AB senaste Covid-statistiken BOS
- 880 14.11 1027 CKLQ Brandon MB med CW under AB. Här ett svagt "Q Country" BOS
- 890 14.10 0400 WLS Chicago MI – a Cumulus station. Väderrapport. RFK

- 970 18.9 0300 **WDUL Duluth WI.** Had company of the now "common" WZAM-MI - but came into the clear with a "9-70 WDUL Superior Duluth". OJS/L
- 970 31.10 2300 **WHA Madison WI.** As "usual" (the few times it has happened) when WLBL-WI 930 is really good, I check 970 for a // signal. I have heard NPR several times, but never any local content. This time I got lucky, and I caught a couple of local station promos before the station disappeared, so I lost the TOTD id. I noticed a 9-second delay in the signal on 970 and got the following explanation: "WHA is operating in hybrid mode, with IBOC (HD Radio) carriers on both sides of the AM carrier. There is a delay in the audio when operating with HD Radio, as the audio is processed and converted to digital; the analog AM audio is delayed to sync with the digital (HD) audio, to ensure a smooth transition when listeners' receivers switch from one to the other and vice versa.". OJS/K
- 980 5.10 0500 **WDVH Gainesville FL.** "You are listening to the greatest hits of R&B - WDVH AM and W231DH Gainesville ...". OJS/A
- 980 3.11 0701 WDDO Perry GA. Groovy gospel on 980 is not common, so I had to get to the bottom of this one. Fortunately, it was audible for quite some time and now it was pretty good with "This is the new team ... gospel – new 9-80 AM WDDO – Perry, Macon". xWPGA. OJS/A

## ✉ Från e-posten

### **Jan Edh 12.11.2020:**

Det blev inte som tänkt. Jag åkte ut redan på middagen 4.11 för att kolla hur asiaterna gick. Riggade upp mottagaren och sedan gav sig Dan och jag ut på en myr för att flytta jordningen av vår 300-grads Beverage eftersom den hamnat för nära en saltsten för älgarna.

När jag var tillbaka kunde jag snart konstatera att det inte fanns något från Japan eller Korea och knappt ens kineser. Däremot började det gå många indier med bra styrka, men också andra från södra Asien.

Kvällen gav sedan inget alls mot Asien.

Natten hade jag av konditionsbilden att döma trott på nordamerikaner. Så blev det inte. Knappt något alls fram till långt in på morgonen, då det kom en öppning med peruaner från Lima-området.

-----

En kraftig störning som täcker hela mellanvågen har dykt upp hos oss i Fredriksfors. Det är framför allt på de lite västligare antennerna som den märks och framför allt då på 285 grader och den nyuppsatta i 300, medan den märks lite mindre ju längre söderut och österut vi väljer antenn. Riktningen gör att man därmed kan misstänka att det kommer från något inne i Delsbo samhälle.

Vid lyssningen den 9-10.11 krävdes det rejält starka signaler för att ta sig igenom störningen, först under natten när det framför allt var NA-signaler och sedan mot morgonen då det blev mer LA-betonat.

### **Ronny Forslund 12.11.2020:**

Några loggningar från Fredriksfors.

Nu är det knappast någon idé att krama ur trålen ytterligare stationer utan hög tid för en Hälsingeresa igen. Bland annat för att se hur den nyligen uppsatta 300-gradaren fungerar. För min del har det varit dåligt med östkuststationer hittills denna säsong men det kanske kommer. I alla fall gäller det att ta vara på kondsen så länge de varar. Det har i stort sett bara blivit NA hittills men beroende på hur kondsen svänger kanske det blir till att plocka lokaliranier nästa gång....

### **Bo Olofsson 14.11.2020:**

Inte mycket hittills som kunnat dra uppmärksamheten från PAX138-kollandet. Men från den 10.11 i alla fall några bra timmar. Som regel har en störning förstört sunrise men Peru kan vara kul i små doser i väntan på NA. Förbättringen fortsatte med nytt årsbästa den 14.11 Söndagen får jag kommentera nästa gång.

### **Mika Mäkeläinen 15.11.2020:**

DXpedition AIH124 in Lapland will be ending soon. On Saturday morning I'll be heading south with Jim Solatie. I haven't continued my daily postings here, because I've mainly tried to focus on working remotely this week, and so keeping all the recordings running at the same time has been enough of a challenge. Propagation has been average, no terrific historic openings to any particular direction, but we did enjoy a few short bursts of rare stations for instance from Brazil, the U.S. Midwest and Queensland. Also, our new 214-degree wire turned out to be fabulous in netting stations from Nigeria, Algeria, Spain, Italy and the Netherlands, when listening to more far-away targets didn't keep us occupied.

Anyhow, here's my five-cent tour of the Aihkiniemi DX cabin, shot in one take, mostly intended for those of you who haven't yet visited the place.

<https://www.youtube.com/watch?v=stlUxm3uSiA&feature=youtu.be&fbclid=IwAR1r0fLSaImX17z2wcq3jDDfkehJYMi9xUrLRj69ZoXRvd5wEzkFXEvUCZg>

### **Jan Oscarsson 15.11.2020:**

Här kommer en liten QSL-lista + några QSL. Kul att äntligen uppnå 200 QSL:ade radioländer. Österrike var först 1986! 73s från ett grått Umeå /Grattis OM! -tl/

### **Lisette Åkesson 15.11.2020:**

Lite från Skåne igen. Inga supercx precis utan mest det vanliga som puttrat på de gånger jag varit ute i QTH:t. Men lite nytt i alla fall! Helt otroligt vilka nummer ni producerar, vilket enormt arbete det ligger bakom. Hälsningar Lisette

### **Stefan Gustavsson 16.11.2020:**

Några tips till ekot från en bra NA period med den 14:e som ett datum som sticker ut vad gäller cx mot västkusten. Förhoppningsvis hittas ytterligare stationer då långt ifrån alla filer är kollade.

**John Ekwall 16.11.2020:**

I mer än 2 veckor har NA gått med en del instick av LA. Har försökt få fram ID på 970 men det är nog MD-stationen som hörs där. Dåligt med LA senaste 10 dagarna. Mönstret vi har nu liknar förra säsongen rätt mycket. De först kanadickerna kommer in 20 UTC och de sista fadar ut ca 0830 UTC. Har några morgnar fått lyssna till Bahamas 1540 som ibland blir dominant på frekvensen. Efter kl 08 blir det mer knatter på de höga frekvenserna så jag misstänker att det är en lokal störning.

**Odd-Jørgen Sagdahl 16.11.2020:**

Tusen takk igjen for jobben dere gjør for å holde liv i MV-DXingen her i de nordiske landene!

Jeg har hatt som mål å bidra til MVE minst en gang i måneden, men i høst har det ikke gått så bra. Hver mandag ettermiddag/kveld når det dukker opp et nytt MV-Eko i innboksen min tenker jeg – åh det der *den mandagen* i dag ... så sist gang det skjedde la jeg det inn som påminnelse i kalenderen for neste deadline. Derfor kommer dette bidraget omsider!

Som du ser har det vært en spennende og interessant høst. Det har ikke vært de helt store toppene, men et jevnt sig av stasjoner, mange av dem på uvanlige og spennende frekvenser. Hvem kunne vel forvente tre nye stasjoner på 810 f.eks?

Slik jeg tolker informasjonen jeg får fra Finland og Sverige er det ganske stor forskjell på forholdene der sammenlignet med Nord-Norge i år. Det virker som det er mindre interessant DX jo lenger inn fra havet man kommer, og jo lenger sør man kommer, sammenlignet med tidligere år. Vi opplever til dels det samme på Smøla der det har vært veldig lite spennende i høst sammenlignet med Nord-Norge. Nå er det jo mulig at det er hørt ting i Finland og Sverige i denne perioden som ikke har blitt tipset ennå – det vil tiden vise!

**Rolf Larsson 16.11.2020:**

Nu har jag lite tips att komma med, jag har lyssnat vid ett par tillfällen.

Den 9-10 var jag och JE ute i torpet och lyssnade, på morgonen den 11:e stannade jag kvar i torpet medan JE åkte hem, för att kunna göra en del koll på våra antenner. Det visade sig bli ett lyckokast. 10-11 november blev betydligt bättre än natten innan. Å andra sidan prickade nog JE in bra konds nu i helgen då jag inte var närvarande i torpet.

**Radio Nacional de Colombia 80 år**

Radio Nacional de Colombia now looks back on 80 years of history and would like to invite the citizens of the country to take part in the celebrations. For that purpose we have made available some 2.000 documents which tell about the development of the station and its impact on the daily life of the Colombian people. It is our intention to create a collective narrative of the role played by Radio Nacional de Colombia in our lives not only as individuals but also as a nation.

The documents have been classified into various thematic areas: the institutional history of the station, the programming, the radio workers and the station's relations with people and organisations both at home and abroad. Some of the documents have been assembled into relevant galleries.

## Australia

1620 In June 2020 news was forthcoming that Rebel Media [1] was testing its FM Network 4BRZ The Breeze on 1620 kHz from Darling Heights-Toowoomba, QLD ex Rete Italia. Transmitting in C-QUAM Stereo it had already been through a very long testing phase and was still playing 'test-bed' music after several months. They were also doing some site ground radial works but there were delays due to the pandemic. The transmitter used was so far the only AM unit in the network having been ordered in November 2019. It arrived late May, but bench testing revealed a distortion/phase issue with C-QUAM Stereo mode, so it's been returned to factory. There was also talk on The Breeze going on AM1611 (1638?) as well in Maryborough, QLD [2].

1629 Rete Italia, Shepparton, Vic only remaining AM station in Rete Italia network per message from station last week. However, 1620 Wangaratta also listed on website:

<https://ilglobo.com/about-rete-italia-radio-network/tune-rete-italia/>

## Germany

183 The antenna masts on Felsberg are now history. The last two antenna masts were blown up on October 27<sup>th</sup>, 2020. These masts served the former radio station Europe 1. For decades they were landmarks on the German-French border when driving on E29.

(Eric Znalesniak, A-DX, 27.10.2020)

## India

909 AIR Gorakhpur in Uttar Pradesh is using a 1 kW mobile transmitter now as its 100 kW is faulty. (vu2jos, India DX Club 11.11.2020)

## Italy

927 There is test of Radio Milano today, 18.10.2020 from 0850 to 1234 UTC with non-stop music and short info in German about the test. Probably they try to find a new fq ex. crowded 1602 kHz.

(David Tambuchi via Ydun's Medium Wave Info 18.10.2020)

## Korea South

1188 HLKX has been moved to Daebu Island, but it is not 250 kW, but 100 kW.

You can hear it now in the afternoon fighting with Iran. See WRTH 2020.

(Mauno Ritola, ARC 5.11.2020)

## Kosovo

549 RTK Radio Kosova 1, Pristina heard in Finland by LEM 435/VJR on 26.9.2020 0300 (SDXL).

## Netherland

1287 Radio T-Pot, Gasselternijveen will no longer be heard on this frequency.

1485 Radio Koekoek, Rijswijk will no longer be heard on this frequency.

In NL there are 109 LPAM stations on the air.

(Marco via Ydun's Medium Wave Info 30.10.2020).

## BBC News

### Six Local Radio Editors to leave .....14 October, 2020

Six editors in charge of BBC local radio stations are taking voluntary redundancy from the BBC, with two more moving on from their roles at the corporation, RadioToday has learnt.

Those leaving the BBC are Radio Lancashire's John Clayton, Radio Lincolnshire's Charlie Partridge, Channel Islands' Robert Wallace, Radio Shropshire's Tim Beech, Radio Solent's Sarah Miller, and Radio York's Joe Pignatiello.

In addition, Sarah Harness, BBC WM Editor will leave her role and Tim Pemberton, Editor at Radio Gloucestershire has a new role as the BBC's Head of Religion.

Their roles will not be replaced immediately. Instead, Editors from neighbouring stations will take on additional responsibilities for an interim period.

In an email to staff, Head of Audio and Digital Chris Burns says allowing the Editors who wish to leave to take voluntary redundancy will reduce the risk of the BBC having to achieve its savings target through compulsory redundancy.

A BBC spokesperson confirmed the move to RadioToday, saying: "A small number of local radio editors have chosen to leave following a BBC-wide voluntary redundancy programme aimed at reducing costs. We've introduced a temporary leadership structure while we review management of our local stations. The changes will not affect our programming.

"BBC England must save £25m by the end of March 2022 and reducing our headcount is part of that. Our listeners will not notice any difference as a result of these changes."

([www.radiotoday.co.uk](http://www.radiotoday.co.uk))

## Commercial Radio News

### Asian FX to Broadcast on 1584 kHz .....2 October, 2020

A Format change request for the North London 1584 licence currently being used by Love Sport has been approved by Ofcom.

Under the approved changes, Love Sport will make way for an urban, music-led station for young British Asians operated by **Asian FX**. The station is now on air.

Prior to the announcement Ofcom asked members of the public their views:

Two responses were received for the consultation, with one person in favour and one against. Ofcom says: "While we acknowledge that Asian FX would share a similar target audience to that of Sunrise Radio (i.e. younger Asian listeners), Asian FX specifically targets a British Asian audience, and would be the only service that is required to play a blend of contemporary Asian and urban music genres, including a specific requirement to feature the music of British Asian artists."

Last year, the Kelvin MacKenzie owned speech station had a frequency swap with Panjab Radio, moving from 558 which covers Greater London to 1584 which covers North London.

The 1584 licence was originally won by London Turkish Radio, which launched in 1990.

Love Sport remains on DAB in London and the UK via SDL. ([Ofcom.org.uk](http://Ofcom.org.uk))

### Two more MW closure .....2 November, 2020

**792 Smooth Radio**, Bedford

**828 Smooth Radio**, Bournemouth

(James Robinson)

## **Global Returns Two Welsh AM Licences .....15 October, 2020**

Global has handed back the AM licence for **Smooth Radio**'s two frequencies in Cardiff and Newport/Gwent. It follows the transmitters being taken out of service due to the redevelopment of one of the sites.

The two frequencies – 1305 kHz and 1359 kHz – have been in operation since 1980 and have carried many different radio stations under various owners. They were originally home to CBC, then Red Dragon Radio, followed by Touch Radio.

They then joined the Capital Gold network, which became Classic Gold and then Gold, before Smooth Radio arrived in 2004. The move leaves Smooth Radio on just one analogue transmitter in Wales – 1260 kHz serving Wrexham and Deeside in the north of the country. It continues on DAB digital radio.

It's just the latest AM transmitter to be turned off by the industry, with the BBC and Bauer giving up many medium wave services in recent years. ([Ofcom.org.uk](http://Ofcom.org.uk))

## **LPAM Stations**

**Salaam BCR** (Bury Community Radio) has started testing on 1566 kHz. Power is 60 Watt emrp from Jackson Fold Farm, Tottington. This new Muslim community station based in Bury, Lancs was awarded a community radio licence in 2014, it could be the last of the AM community stations to launch in the UK.

Website: <https://www.project29.org.uk/project-radio-bury.htm> Email: [salaam.bcr@gmail.com](mailto:salaam.bcr@gmail.com) or [info@project29.org.uk](mailto:info@project29.org.uk) Postal address: Project 29, 52 Moorgate, Bury BL9 7AF.  
(Communication BDXC-UK October 2020)

## **Other**

A DJ who featured in a 1970s BBC TV report about his "one listener" radio shows broadcast from his garden shed to his wife in the house has been signed by a US radio station.

Deke Duncan, 75, was filmed by BBC Nationwide in Hertfordshire 40 years ago, and he will now broadcast on Wisconsin's WLHA Radio from Sunday.

He was tracked down in 2018 by BBC Three Counties Radio and his story has since been reported all over the world. "I'm living the dream, still," he said. "I'm really thrilled about it - join me for a cheerful earful every Sunday." On BBC Nationwide in the 1970s, DJ Deke Duncan said his "ultimate ambition would be to broadcast to the rest of Stevenage"

Inspired by pirate station Radio Caroline, Duncan started playing records from his back garden in Gonville Crescent, Stevenage in 1974, and still does it from his home in Stockport, Greater Manchester.

He set up Radio 77, but with no licence, the station could only be sent to a speaker in his living room to wife Teresa - his only listener.

In 2018, the film was tweeted by BBC Archive and BBC Three Counties Radio found him in Stockport, Greater Manchester, where he was still presenting to one listener on Radio 77 - his second wife Pamela.

WLHA is operated by University of Wisconsin alumni who studied there in the 1970s and 1980s. Duncan said his show, which can be heard online at 1600 BST, would be "exactly like Radio 77 that I've been doing for nearly 50 years".

Programme director, Kevin "Casey" Peckham said he was "truly delighted" Duncan had joined the team. "Deke's finely-honed talent for doing upbeat, fast-paced, and imaginative radio in the style of great radio of the 1960s and 1970s is a perfect fit for us," he said. "We recognized (him) as a kindred spirit who shared our own passions for radio as it existed decades ago."

### Call Changes September-November

- 1230 KYQT Burns OR – call change to KZHC (October 1).  
1290 KKRC Jennings LA – call change back to KJEF (November 1) after about 16 months.  
1240 WPBQ Flowood MS – call change to WZQK (September 30).  
1270 KGNM Saint Joseph MO – call change to KYSJ (October 15).  
1430 KLO Ogden UT – call change to KMES (November 3); KLO calls will live on 103.1 FM.  
1450 WPVD West Warwick RI – call change back to WWRI (November 3), had these calls 2000-2002.  
1450 WHNK Parkersburg WV – call change to WVAM (October 30).  
 (NRC DX News 88/02 - 88/04)

### Canada

- 690 CKGM Montréal QC – Owner Bell Media has applied to the CRTC to reduce local programming from 96 to 63 hours per week, to allow for additional coverage of live sporting events throughout the broadcast year, including Toronto Blue Jays baseball, NFL Football and NHL Hockey Playoffs. The English language Sports station is known on air as TSN-690.  
1260 CKHJ Fredericton NB – The CRTC approved the reduction of night-time power from 10,000 to 32 watts, allowing CKHJ to be non-directional both day (10 kW) and night, eliminating two of the three station towers and the land they occupy. The deepest Null in their existing Night Pattern equates to 32 watts and is intended to protect the US which is only 50 miles away. Low powered local repeaters CKHJ-1-FM New Maryland and CKHJ-2-FM Oromocto will continue to supplement coverage. Owner Bell Media also owns Fredericton's CFX-FM and CIBX-FM. With market limit of two FM stations, Bell could not move CKHJ-AM to FM.  
1350 CIRF Brampton ON – The station is licensed for a non-directional 1000 watts day and 40 watts at night. A listener 60 miles away, reports that CIRF has recently been dominating 1350 every night, strongly indicating the transmitter is stuck on day power.  
 (Dan Sys, Canadian Radio News via Jon Pearkins via IRCA's DX Monitor 58/10)

### USA

- 760 WJR Detroit MI – networks to Fox/Ru/P/WW1/RER.  
920 KDHL Faribault MN – adds // K250CD-97.9  
1060 KYW Philadelphia PA – adds // WPHI-FM-103.9  
1160 WSKW Skowhegan ME was classic hits, now oldies  
1250 WSSP Milwaukee WI – deletes // W289CB-105.7  
1300 KKOL Seattle WA – silent September 27, 2019; back on the air with STA September 25 (see ARC late, late news MVE 61/7). KKOL was first licensed in 1922.

- 1360 WDRS Hartford CT new slogan: "Talk Of Connecticut"  
1420 CKDY Digby NS – applies for a permanent move to 99.7 MHz FM.  
1430 KMES Ogden UT ex KLO, was adult standards, now El Sembrador Nueva Evangelizacion (ESNE) Spanish religion, new slogan: "El Sembrador Radio" drop nets  
1440 KEYS Corpus Christi TX – licensed for 1 kW day (non-directional) /night with night pattern to the SE, now granted 1 kW days/199 W nights both non-directional. KEYS has been operating under a similar STA since August 2016.

- 1510 KPLS Littleton CO – networks to SRN.
- 1510 WRRD Waukesha WI was unknown format, now ESPN Radio Network sports, adds slogan: “540 AM ESPN”
- 1560 WFME New York NY – granted STA, U4 30000/50000, night pattern 24 hours, day power reduced from application in order to protect WISP-1570.
- 1600 WWRL New York NY – format to UC:NWS/TLK (ex-ETH/Indian); slogan to "Black Information Network," networks to BIN.
- 1700 KKLK Richardson TX – adds // K239DA-95.7  
(NRC DX News 88/02 - 88/04, IRCA’s DX Monitor 58/10)

### Entercom – Radio One Swap from November 23, 2020

Entercom and Radio One have agreed to a swap of stations in four markets that will lead to format changes at multiple stations.

Entercom will receive Sports “980/95.9 The Team” WTEM Washington DC, plus 3 FMs.

Radio One will receive Entercom’s Charlotte NC cluster of News/Talk 1110 WBT, Charlotte/99.3 WBT-FM Chester SC, Sports 610/102.5 WFNZ plus additional 1 FM.

(Lance Venta, RadioInsight 6.11.2020)

### Florida AM Station Plans to Go All-Digital

A Florida AM radio station plans to go all-digital soon, now that the Federal Communications Commission has allowed such transitions. WMGG is owned by NIA Broadcasting; it’s a Class B station in Egypt Lake, Fla., near Tampa, airing a directional signal via a diplexed array. It has 2.8 kW power by day and 800 watts at night, and airs on 1470 kHz. President Neal Ardman told Radio World he is in the process of ordering a Nautel HD Radio

transmitter to make the change. “It is time,” he wrote in an email, adding that he is “not worried” about losing analog listening. WMGG has an FM translator on 101.9 MHz. Both signals are part of “96.1 FM Caliente,” the radio home of the Tampa Bay Buccaneers’ Spanish-language network.

## Bokrecension:

# Kimlandia

Bengt Ericson

Denna intressanta bok om Nordkorea har just publicerats på svenska och är skriven av ARC-medlemmen Mika Mäkeläinen. Mika höll ju föredrag om Nordkorea och sina besök i landet vid vårt konvent i Jönköping 2018.

Världens mest slutna land är en fascinerande gåta för oss västerlänningar. Mika var YLE:s utrikeskorrespondent i Beijing, då han fick chansen att besöka gränsorten mot Nordkorea, Nanping, och blev stoppad av den kinesiska gränspolis, säkerhetstjänsten och militären. Det är spännande att läsa hur stora svårigheter de olika myndighetspersonerna hade innan de kom överens om vad de skulle göra med Mika, hans fotograf samt chaufför. Mycket spännande.

Denna utflykt gjorde honom mer intresserad av ”arbetarnas paradys”. Det som presenteras för turisterna är bara en putsad fasad. Mika lyckas få visum till NK samt biljett med Air Koryos TU-204 som är den enda flygtyp som får flyga inom EU. Tullpassagen på Sunans flygplats 2 mil norr om Pyongyang är en lång och svår process med alla moderna IT-produkter som en journalist skall ha med sig.

Mika och hans team får två övervakare, Mr Choe och Oh. Sedan börjar en vistelse i Nordkorea, som ger en bra bild av det stängda landet. Mycket spännande och läsvärt kombinerat med bildmaterial. Att kunna ta dessa ”inside” bilder är en stor bedrift. Det sista kapitlet beskriver de livsviktiga kärnvapnen som är Kim Jong Uns bästa livförsäkring, vilket gör det ytterst svårt att förmå Nordkorea till nedrustning.

Diktatorn Kim Jong-Uns brutala polisstat är fortfarande ohotad, men hur länge till? Läs den intressanta boken och du förstår mera hur vanliga nordkoreaner klarar sig på mindre än tio kronor i månadslön. När ni läser boken glöm inte att kolla fotnoterna (siffrorna), som finns i slutet av boken för den informationen ger mycket info.

Boken kan köpas för kr 199:- på Bokus eller Adlibris.

*Fotona föreställer något som intresserar DX-are. Bild 1 är en kabelradio som bara utsänder programmet KCBS, Joson Jung-ang Pangsong. Bild 2 visar den mediaarsenal som finns i mer förmögna hem. Mer detaljer i boken.*

# ON4UN – Silent Key

Marleen Devoldere via Bernt Ivan Holmberg 10.11.2020

Såg i dag en sorglig nyhet för oss antennintresserade, författaren av Low Band DXing, ON4UN, har blivit en Silent Key

<https://www.dx-world.net/on4un>

[sk/?fbclid=IwAR2GlgvsGJih0ctgiLY\\_NQdqJ1rScrzA3u4OCP8ktvRdS\\_7hhAs7v6CK6vs](https://www.facebook.com/sk/?fbclid=IwAR2GlgvsGJih0ctgiLY_NQdqJ1rScrzA3u4OCP8ktvRdS_7hhAs7v6CK6vs)

Very sad news just received from the daughter of John, ON4UN.

It is with sadness, but also gratitude and pride, I have to let you know my father John ON4UN, has become silent key.

John's health has steadily deteriorated throughout the year, but in the last few weeks he was home with us where he peacefully passed away yesterday November 9.

Ham Radio, and especially Low Band DXing, were my father's lifelong passion and always had a strong presence in our house. Sometimes literally, when many of you paid us a visit or a group of DX'ers came over for a weekend of contesting. At other times in the background, when my dad was working on a project or experimenting with new equipment or antennas.

Though I don't have a call-sign, I very much feel part of the big radio family and always will. I am very proud of everything my father has accomplished together with you, and I am grateful to the many of you who have given him so much joy over the years. We will miss him dearly, but we take comfort looking back on the beautiful life he lived as a member of the wonderful Ham Radio community.

We are planning a digital farewell ceremony on Saturday November 21st and will keep you updated on practicalities.

If you would like to send us a message please mail to [ON4UN.SK@gmail.com](mailto:ON4UN.SK@gmail.com) – John's old e-mail account is not in use anymore.

In the meantime, you can pay him a visit at [QRZ.com](http://QRZ.com) where he always kept his resume up to date.

*John was, of course, the author of [Low Band DXing](#)*

Efter en liten konditionssvacka kommer tydligen NA-stationerna på bred front igen så när ni läser detta befinner jag mig i lyssnartorpet i Fredriksfors för att förhoppningsvis plocka en och annan station. Antalet koronasmittade lär ha ökat en hel del även i Delsbo med omnejd så det blir nog till att hålla sig i enskildhet i torpet så mycket som möjligt. Detta lilla torp måste vara idealiskt för att sprida smitta, särskilt om många personer samlas samtidigt för att lyssna. Nej, låt oss innerligt hoppas att eländet är över snart så att allt kan återgå till det normala. Nu över till roligare saker: nostalgi-QSL. Vi börjar med ett brev som Kanwar Sandhu fick från the Voice of the United Arab Emirates i Abu Dhabi 1981. Frekvens 729 kHz.

Mr. Kanwar Sandhu  
 406, Krishna Nagar,  
 Ludhiana-141 001  
 India.

Dear Mr. Kanwar Sandhu,

Thank you for your letter dated 30th January 1981 inviting attention of Mr. Fawzi Salih, who has a copy of your letter/Reception report.

I am pleased to confirm that we have found your report about your reception our broadcast on 729 KHZ (MW) on 29th January was correct.

I enclose the following materials as a gesture of my appreciation to your hobby:-

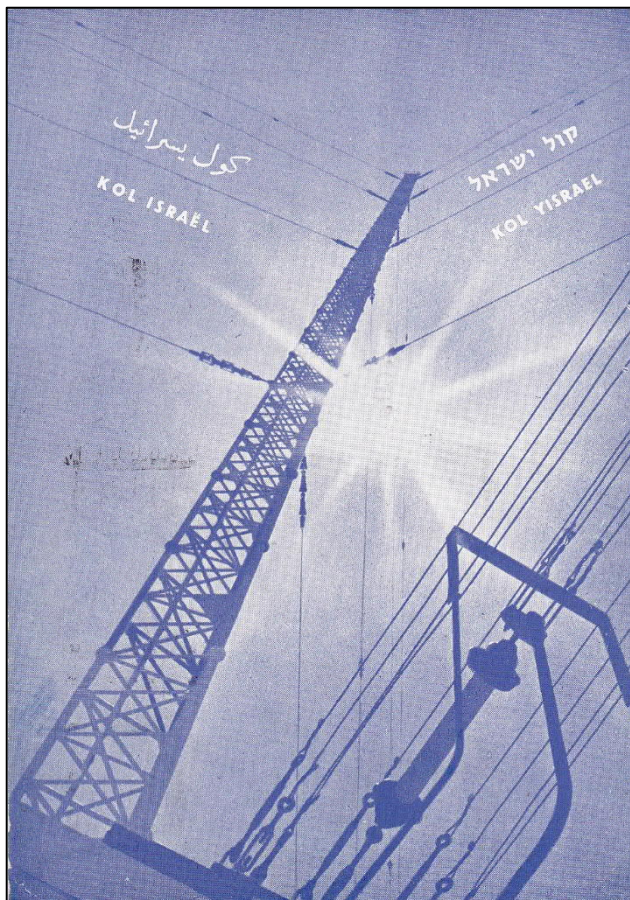

1. Two illustrated booklets about UAE
2. A copy of the Broadcast schedule of Stations in the U.A.E.

Thanking you,

Yours sincerely,

  
 MOHAMMED AL-FAZROHI  
 Director  
 Voice of the UAE from Abu Dhabi

Nästa QSL kommer från Israel och Ullmar Quick UQ. Ullmar rapporterade stationen i Haifa på 1025 kHz 1962 och fick nedanstående kort som svar. Kortet inscannat av JOE.

Ytterligare ett QSL från UQ. Detta är en QSL-folder från N.R.U. (senare N.O.S.) i Holland som sände från Lopik på 1007 kHz och Ullmar rapporterade stationen 1953. Inscannad av JOE.

Holland har ju blivit ett intressant land ur DX-synpunkt på senare år då många lågeffektade legala stationer kommit igång. Många av dem är riktiga DX då de är relativt svårhörda. En annan legal station startade 1976 på 1250 kHz med 1 kW: STAD Radio Amsterdam. STAD stod för Stichting Amsterdamse Draadloze Omroep och man satsade mycket på kulturella inslag om film, sport, teater etc och sände lokala nyheter, evenemangstips och trafikrapporter för Amsterdam. Tore Larsson TL rapporterade stationen 1979 och fick en programbroschyr med täckningskarta bifogad till QSL-et. Stationen stängde på nyårsafton 1988 och övergick sedan till FM under namnet Radio Noord Holland.

Nostalgi, ja. Visst är det lätt att bli nostalgisk när man tänker på utvecklingen inom den brittiska radioscenen. När kommersiell radio legaliserades på 1970-talet sprang en rad fristående stationer upp som svampar ur jorden, med egna och ofta trevliga program. Radio Tees startade 1975 på 1169 kHz (senare 1170) och finns sedan 1988 bara på FM. MV-frekvensen har nu tagits över av Greatest Hits Radio Teesside som ägs av Bauer Media. Alltså ytterligare en av dessa kedjestationer som alla låter likadant. Suck.... QSL-kortet kommer från min egen samling.

C. KENNEDY  
Chief Engineer

Karibien var tidigare ett mycket intressant DX-område på mellanvåg men i dag är antalet stationer där på vårt favoritband högst begränsat. En station som brukade höras relativt ofta var Radio Caribbean International i Castries, St. Lucia på 840 kHz. V/s Linda J. Skeete som besvarade min rapport verkade hylla återvinningens principer då hon tillsammans med QSL-brevet skickade ett vykort insänt till stationen med en låtönskning från en lyssnare!

## RADIO CARIBBEAN INTERNATIONAL

RADIO CARIBBEAN (1975) LIMITED

PROGRAMMES IN ENGLISH AND FRENCH — 18 Hours Daily.

17th February 1977

Mr. Ronny Forslund,  
Box 225Ed  
S-82042 Korskögen  
Sweden.

Dear Ronny.

Many thanks for your reception report dated January 7th. 1977, the tape enclosed and your long chatty letter. We are pleased to confirm that your reception tape is Radio Caribbean International thanks to the tape recording.

Radio Caribbean at present broadcasts in English and French from the island of St. Lucia in the Windward Islands. The islands population is about 120,000 people and we enjoy a beautiful climate all year round. You are right, snow is quite unknown to us and most of our children only ever see snow on Christmas cards. We spend Christmas on the beach!!!!!! Our carnival celebrations begin next week, so we are looking forward to all the fun of Mardi Gras.

I hope you enjoy the enclosed postcard and will continue to tune in to Radio Caribbean in your snowy cold nights, and perhaps feel a little sunshine from our programmes.

Yours sincerely,

*Linda*  
Linda J. Skeete  
Traffic Secretary

LJS/ea

Avslutningsvis ett QSL-brev som vår eminente sekreterare och tillika huvudredaktör Tore Larsson TL fick från spanjoren Radio Popular de Ciudad Real 1963. Ha det bra alla, stay safe och GOOD DX!

Sr. D. Tore Larsson  
Falkoping - SUECIA

Muy estimado señor: me es muy grato acusar recibo de sus estimada carta del día 25 de Junio, en la que me incluye un control de nuestra audición correspondiente al día 23 de Junio.

Consultado nuestro libro de emisiones, me es agradable confirmarle, que la recepción de nuestra emisión por Vd. ha sido TOTALMENTE PERFECTA. Nuestra frecuencia es exactamente de 1.277 kc/s. en la banda de los 234'9 metros. Sus indicaciones respecto a la hora ( 01,04 a 01, 11 hora española ) concuerdan perfectamente con las notas de nuestro archivo. Por todo ello le felicito y le doy las más expresivas gracias.

Nuestro equipo emisor tiene 2 Kws. de potencia y una antena radiante de 45 metros de altura.

Siendo muchos los radioaficionados de toda Europa que nos sintonizan estamos estudiando la posibilidad de ofrecerles en breve unos programas de música española dedicada a ellos.

Le incluyo un banderín de nuestra emisora como recuerdo nuestro.

Un afectuoso saludo

Fdo.: Joaquín Fernández Martín. Director.

## 4BU Bundaberg QLD – 1332 kHz

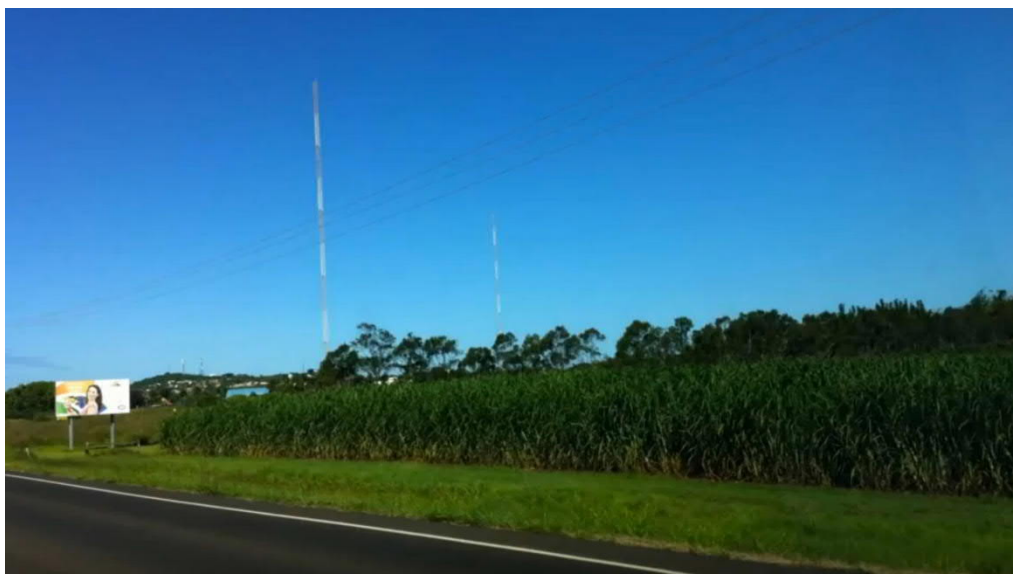

Australia again. Listened to what seemed to be Grant Broadcasters' Classic Hits 4BU Bundaberg, Queensland on AM 1332 kHz February 4th this year from 1420z until a local advertising block positively revealed it was them 1453-1455Z on the fabulous Arctic Kiwi SDR and the Pacific Beverage antenna constructed by Norwegian listening expert Bjarne Mjelde. Strong interference from JOSF in Nagoya.

I got in touch with their Chief Engineer Keith this autumn in another FB forum concerning transmitters, so told him about my reception, and played recording of his station and one month later he'd sent me a big package with station promotional material.

He also sent a nice video of the change of the 60 meter twin transmitting towers 2012. 4BU is regularly using a 5 kW Harris Gates transmitter, they also have a standby from Blyth, and an old STC 2.5 kW valve TX, only decommissioned recently.

Just like when I was a young dxer and stations in North America, America Latina or BBC or ILR locals might do similar appreciating the report of a faraway reception. Very rare today, so greatly appreciated!

My reception had already been recognized by station admin in February.

The station reappeared on April 4th at 1650z, this time together with 1026 4MK Mackay (same company), 1476 4ZR Roma plus several outlets of Vision Christian Radio among them 1656 Bundaberg and 1647 Mackay. A bit later, also 1116 SEN Melbourne (3AK) was heard for the second time in two days.

Thanks so much 4BU and Keith for the nice replies, pictures and video and to Bundaberg Amateur Radio Club for the permission to use their pictures.

I quite agree with his message!

Bundaberg is a city in south-east Queensland, Australia, about 385 kms north of the state capital, Brisbane. It is 15 kms inland from the Coral Sea coast and situated on the Burnett River. It is a major centre within the broader Wide Bay–Burnett region. The ABC station here, ABC Wide Bay on 855 has also been heard. Bundaberg is the business centre for a major sugar cane growing area, and is well known for its namesake exports, Bundaberg Brewed and Soft Drinks. The city is an important tourism gateway for inland national parks and the southern end of the Great Barrier Reef and resort islands. It is the seat of the Bundaberg Regional Council.

As at June 2018, the urban population of the Bundaberg was 70,921 (Wikipedia)

## WZON Bangor ME – 620 kHz

Jan,

I can verify that is our station WZON-AM620, simulcast locally on WKIT HD-3. I'm not 100% sure, but I believe your recording is one of our recorded ids read by Jason Roberts, a long-time announcer for all three of our stations.

WZON is one of the oldest continually operating stations in the State of Maine, having signed on the air in 1926 (under the call letters WLBZ) and has been broadcasting on AM620 from our current site in Bangor, Maine since 1928. The original 1928 transmitter building is still part of the now-expanded studios and offices building. The station has been programmed in many formats over its long history and is currently an "oldies music" format playing songs from the 1960s & 1970s. We've been owned by the authors Stephen King & Tabitha King since 1993. Please visit our website at [WZONam.com](http://WZONam.com) to see a little more about our station.

Thanks for reaching out to us with this report of our signal, I've always found it fascinating when we get these. I also forwarded your email on to our engineer who is always interested to see what equipment people are using when they pick up these long-distance signals.

Best regards,

Carey Haskell  
Operations Manager

## **KVAK Valdez AK – 1230 kHz**

Hello Jan,

Yes, indeed! I can confirm that we are KVAK Radio in Valdez, Alaska. We run two stations: 93.3 FM and 1230 AM. We run daily local weather and marine weather reports on both stations, and our weather is sponsored by our local phone and internet company, Copper Valley Telecom.

As you might have heard in the weather report, it's been quite cold and blustery here lately. I hope the weather in Sweden is more accommodating! Thanks for listening, and good luck with your future DXing!

Heidi Franke
